

Electronic Labelling Solution

EXCLUSIVE INVITATION

"Importance of Identification / Marking"

INTRODUCTION

Enhancing efficiency is a hot topic for most professionals, but with many new technologies to consider, the first questions are usually - how it will really benefit our workplace and will it work with existing electrical equipment?

This seminar aims to generate awareness for professional practitioners in the electrical and electronics industries about the importance of marking cables, wires, panels, and other essentials in their daily work. Various benefits of identification will be covered during this seminar and attendees will also have the opportunity to learn through hands-on experience of marking during the workshop session.

Set in an interactive environment with industry experts sharing the applications of marking and discussions among participants, this seminar-workshop promises to boost work efficiency, at the same time ensuring professional results through identification/markings.

Topics:

- Importance of Identification / Marking
- Reference of guideline of professional marking
- Introduction of durable marking with labels.
- Marking process
- Benefit of marking
- Case Study
