

National Workshop Building Sector Energy Efficiency

8th December 2016 - Eastin Hotel, 1, Solok Bayan Indah,
Queensbay, 11900 Bayan Lepas, Pulau Pinang

15th December 2016—Johor Bahru

Building Sector Energy Efficiency Project is a national programme for the building sector funded by GEF-UNDP and managed by the Public Works department (JKR) in Malaysia.

TEEAM in collaboration with BSEEP are pleased to present this series of workshops to the building industry.

Rising energy cost, legislations relating to climate change and its impact on markets and the need for industry players to respond to such trends is the context for this workshop. This workshop will take participants through the opportunities, and technical and business feasibility of Energy Efficiency.

Participants who will benefit from these workshops include contractors, building consultants, facility managers, building owners and operators, building system vendors and government regulators.

Contact TEEAM for more information.
