THEME

LED LIGHTING for SMART LIVING

ABOUT LED EXPO THAILAND

Thailand's LED lighting market accounts for 12% of the total lighting market share with a projected growth rate of CAGR 30% during 2015-2020. LED Expo Thailand aims to support and accelerate this upswing by providing a dynamic hub for LED/lighting companies, mainly from Southeast Asian countries, to congregate, promote and partner with neighboring LED markets at a niche level.

LED Expo Thailand welcomes visitors from varied business spheres including architects, lighting industry professionals & many others to explore the use of LED for various applications in both domestic and commercial usage.

You will find leading LED manufacturers, component and equipment suppliers, lighting specifiers and design engineers who are shaping the future of LED technology today exhibiting at the show.

WHY THAILAND?

Thailand is ranked as the 50th largest country in the world and is a part of Association of Southeast Asian Nations and ASEAN Economic Community (AEC) along with nine other countries namely: Indonesia, Malaysia, Philippines, Singapore, Brunei, Cambodia, Laos, Myanmar and Vietnam. The aim of AEC for 2015 is to create a single ASEAN market with gross domestic product (GDP) of \$2.5 trillion & trade of \$1 trillion. So far, ASEAN overall has progressed to a level of 80% in terms of eliminating tariffs on goods traded within the region.

According to statistics, the Thailand lighting market value totaled US \$800 million in 2014, up 12 percent compared to 2013. The country's LED industry is estimated to grow at an annual rate of 30 percent in the next five years, with indoor lighting and construction applications consisting two major components of the LED lighting industry.

LED Expo Thailand is one of the leading LED lighting events in Southeast Asia and ASEAN's largest international exhibition on LED lighting products & technology.

In terms of business opportunities, it is foreseen that a large number of companies and government projects will be using LED products as evidenced below:

LED Automotive Sector

The number of cars with LED headlights is estimated to grow exponentially with the value of LED components growing from USD 130 to 300 million.

Government Projects

EGAT has started a pilot program to use LED street lighting as well as replacements on EGAT's properties and dam area.

Public & Private Infrastructure Projects

From the construction of the new parliament house to stadium, residential, commercial, hospitality and entertainment projects.

CP All Public Co., Ltd.

Creates "7 Go Green" project and invests over 500 million THB to replace LED light bulbs in 7-eleven stores throughout Thailand.
