Meeting with TNB CEO

A 10-member delegation led by TEEAM President, Dato' Ir Lee Peng Joo had a meeting with TNB CEO, Dato' Seri Che Khalib Mohamad Noh and TNB Distribution Management on 26th July 2007. The meeting was held following certain pressing issues on TNB's recent tender.

Changes made in TNB Specifications

TEEAM highlighted that the association had received complaints on the new manner TNB floated its recent tender for 11kV and 33kV air insulated switchgears (AIS). The sudden change in specifications in TNB tenders had resulted in many of the players being caught off guard and were unable to comply; especially within the allowable time.

Dato' Seri Che Khalib expressed his appreciation of TEEAM's concern on the changes made by TNB in the above tenders. The intention is to ensure equipment is of good quality and it is not the intention of TNB to push out any players.

Partial Discharge

In the new specification, the stated partial discharge (PD) value for each phase of complete switchgear shall not exceed 200 pC. TEEAM highlighted that generally, the maximum acceptable value should not be specified for a complete switchgear assembly. Due to the complexity of the insulation systems in switchgear, it is not yet possible at the moment to generally specify a reliable relationship between partial discharge levels and the dielectric state (expected lifespan of its insulation system) for a complete switchgear assembly.

TEEAM further proposed that TNB to evaluate the dielectric state of switchgear/

Pressing issue was highlighted to TNB – Meeting chaired by Dato' Seri Che Khalib Mohamad Noh (TNB CEO).

TEEAM officials – (from left) Dato' Ir Lee Peng Joo (President), Mr Yap Ching Kiat (Vice President), Ir Yong Ah Huat (Honorary Secretary), Ir Rocky Wong Hon Thang (Honorary Fellow cum Technical Adviser), En Noor Azman Naib (Member), Mr Tan Quok Chiat (Member) and Ir George Chin (Member).

equipment by measuring the PD level before commissioning and monitors the trend of partial discharge level from time to time during the periodic routine inspection instead of specifying a maximum PD limit for complete switchgear. TEEAM explained that the 10 pC stated in MS is referring to a single insulation component. The required time to accommodate such change will be at least 12 months.

TNB claimed that the 200 pC is considered a liberal limit since IEC has stated 100 pC and MS stated 10 pC as the limit. TNB quoted IEC 62271-200 Annex B, B5 stated that "for system with no solidly earthed neutral also 100 pC at 1.1 Ur". TNB has interpreted the "system" as complete switchgear assembly and used the specified 100 pC as reference, then with <200 pC at 1.1 Ur as PD limit for a

complete switchgear assembly in their latest specification. TNB agreed that the PD test is not required to be included as routine test during FAT. They further clarified that the PD "type tests" conducted at TNBR can be accepted.

Internal Arc Fault

The new specification requires the internal arc fault test duration to be 1s. The required time to accommodate such change will be at least 12 months. However, this requirement will incur modification of panel structure to increase its robustness. Since the modification is just to prove the panel's structural strength for withstanding 1s internal arc, TEEAM requested TNB to consider re-type test on internal arc fault withstand only and other re-type tests to be exempted.

Close Door Racking Operation

The new specification requires the racking in and out of the circuit breaker truck to be of close door operation. This will require about six months to accommodate. TNB declared that no inspection window is required for the close door racking operation. TNB further clarified that no re-type test is required for this modification.

Dato' Seri Che Khalib noted that since almost all the players cannot comply fully with the new specifications, TNB will float a re-tender of the AIS. Dato' Ir P J Lee hoped that the association can work with TNB specification teams to ensure that compliance can be made if any changes are intended. TNB will notify manufacturers in future if there is a new specification to be introduced. It is the shared belief that a common acceptable product specification will benefit both the end user (viz. the TNB) and manufacturers.

Asean Elenex 2007 Industrial Automation 2007

The 7th international exhibition of transmission & distribution for the Asean region, Asean Elenex 2007 and the 4th series of the Asean's complete automation solution event, Industrial Automation 2007 were held from 18th to 21st July 2007 at Kuala Lumpur Convention Centre. It showcased the latest technology and products of 600 companies from 31 countries, including national pavilions from China, India, Singapore, South Korea and the UK. It attracted over 10,000 trade visitors from 44 countries, comprising foreign and local entrepreneurs who are expected to establish networks and collaborations.

The four-day shows provided an excellent platform for both visitors and exhibitors to exchange knowledge and to look out for improved solutions that is being adopted by some of the leading names in the electrical engineering industry worldwide. The show is fully supported by the Ministry of Science, Technology and Innovation; the Ministry of Energy, Water and Communications; Tenaga Nasional Berhad, SIRIM Berhad, the Singapore Manufacturers' Federation; FMM-Automation Technology Industry

At the official opening of AE & IA 2007 – (from left) Dato' Dr Mohd Ariffin Hj Aton (the then SIRIM President & Chief Executive), Tan Sri Datuk Amar Leo Moggie (TNB Chairman), YB Dato' Seri Dr Lim Keng Yaik (Minister of Energy, Water and Communications), Tan Sri Asmat Kamaludin (MES Chairman) and Mr Tiong Khe Hock (FMM-ATIG Chairman).

Group; Suruhanjaya Tenaga; MATRADE and TEEAM. TEEAM also participated as an exhibitor.

Asean Elenex 2009 and Industrial Automation 2009 will be held from 15th to 18th July 2009.

VIP hand-shake – Mr Jack Soon Lee Hock (TEEAM Assistant Honorary Secretary) greeting YB Dato' Seri Dr Lim Keng Yaik (Minister of Energy, Water and Communications). On the left is Mr Suresh Gorasia (TEEAM Past President).

TEEAM's booth – (from right) Mr Jack Soon Lee Hock (Assistant Honorary Secretary), Ms Winnie Khong Choy Tai (Executive Secretary), Ir Steven Ng Khoon Hwa (Vice President), Ms Farrah Leong Soh Lan (Secretarial Assistant), Mr How Chee Seng (Committee Member) and Ms Agnes Keng Pei Lu (Assistant Executive Secretary).

TEEAM's support at the opening – (from left) Mr Suresh Gorasia (Past President), Mr Jack Soon Lee Hock (Assistant Honorary Secretary), Mr David Chong Ah Nyap (Vice President), Mr Wong Chin Cheong (Honorary Treasurer) and Ir Steven Ng Khoon Hwa (Vice President).

VIPs at the opening – (from left) Engr Fu Wing Hoong (TEEAM Deputy President), Dato' Ir Lee Peng Joo (TEEAM President), Datuk Ir Md Sidek Ahmad (TNB Senior Vice President – Operations) and Mr Yap Ching Kiat (TEEAM Vice President).

China Guangdong-Malaysia Economic and Trade Cooperation Conference

The China Guangdong-Malaysia Economic and Trade Cooperation Conference 2007 was held on 6th September 2007 at Shangri-la Hotel, Kuala Lumpur.

The conference was sponsored by the People's Government of Guangdong Province. It was supported by the Embassy of the People's Republic of China, Malaysia External Trade Development Corporation (MATRADE) and Majlis Amanah Rakyat (MARA). The event was jointly organised by the Department of Foreign Trade and Economic Cooperation of Guangdong Province, the Associated Chinese Chambers of Commerce and Industry of Malaysia (ACCCIM) and Economic & Commercial Counsellor's Office of the Embassy of the People's Republic of China in Malaysia.

Some 2,000 participants from the Malaysian public and private sectors attended the conference. Participants are from various industries such as machinery, E&E, wood, property, manufacturing, insurance, logistics, food, construction, plantation, hardware, international trade, hospitality industry, tourism and pharmaceutical. Members of TEEAM were also invited to attend the event.

VIPs at the opening ceremony are HE Mr Cheng Yong Hua (Ambassador Extraordinary and Plenipotentiary of People's Republic of China to Malaysia), YB Dato' Seri Ong Ka Ting (Minister of Housing and Local Government Malaysia and President of Malaysian Chinese Association), HE Mr Huang Hua (Governor of People's Government of Guangdong Province, People's Republic of China), Tan Sri William Cheng Heng Jem (President of ACCCIM), Mr Ter Leong Yap (Vice President of ACCCIM).

The Chinese delegation consists of over 500 entrepreneurs from Guangdong. The

Signing ceremony – MOU signing for key cooperation programmes.

conference aimed to enhance economic and trade cooperation between Malaysia and China in general and Guangdong Province in particular. Guangdong is the leading province in terms of comprehensive economic strength in mainland China. It is one of the most dynamic economies and has the strongest technology.

Guangdong is one of the most important manufacturing bases in China with 9 pillar industries that include electronic information; electrical appliances; machinery; automobile; medicine; paper making; textile and garment; food and beverage and building materials.

Two prominent speakers, Dato' Paul PK Koon (Group Chief Executive, Press Metal Berhad in Guangdong) and Mr Wang Wei Jun (Vice President of Asia Pacific Region, Hua Wei Technologies Co., Ltd in Malaysia) shared their investment experience with the conference participants.

Memorandum of Understanding (MOU) signing ceremony was held after the opening

ceremony. Some 27 MOUs were signed. Guangdong provincial government provided 160 key cooperation programmes and list of import and export products for the event, covering infrastructure, agriculture, light industry, machinery, electronic information, chemical industry, building materials, service sector and tourism.

Business networking sessions between Guangdong enterprises and Malaysian businessmen were scheduled for the afternoon. Relevant government departments of Guangdong Province and Malaysia carried out interactive consultation and communication, providing enterprises and institutions from both sides with consultation on policies, investments and trade services.

A copy of Guangdong Investment Projects and Investment Guide to Guangdong is available at the TEEAM Library for members' reference. For more information on the investment guide to Guangdong, please log on to www.gddoftec.gov.cn

Overwhelming response – The conference is well-attended with participation from various industries.

Representatives from TEEAM – (from left) Mr Ho Khai Hong (Council Member), Ms Agnes Keng Pei Lu (Assistant Executive Secretary) and Mr Suresh Gorasia (Past President).

The Economic Solution

NEW !

BZM is the new, economic, cost - effective MCCB solution that offers all basic circuit breaker functions with trusted Moeller quality.

- 2 frame sizes; 125A, 250A
- Fully rated at 50 °C
- 15kA – 25kA at 415V AC

EEPC Business Meeting

The Engineering Export Promotion Council (EEPC), an international trade promotion body working under the Ministry of Commerce, Government of India held a Buyer-Seller Meet in Kuala Lumpur on 21st September 2007 at Renaissance Kuala Lumpur Hotel.

The event was in cooperation with the High Commission of India in Kuala Lumpur where 11 leading Indian engineering manufacturers/suppliers of various products held one-to-one business meeting with Malaysian buyers. TEEAM helped to promote the event. The multi product trade delegation had earlier visited Thailand and Philippines.

The 11 companies are A D Electrosteel Co Pvt Ltd, Binayak Hi-Tech, Bhansali Cable and Conductor Pvt Ltd, Control Engineering Company, Delton Cables Limited, Doiter Engineering Exports, Engineering Trade Centre (I) Pvt Ltd, Meridian Exports, Safeguard International (P) Ltd, Sharp Tools and Taparia Tools Limited.

The delegates' profile includes manufacturing of steel casting, railway components, fabrication, fence fittings, cables & wires, provider of automation solution and energy saving system using AC variable frequency inverter drives, aluminium and cast iron components for automotive application,

machinery, equipment, power transmission products, switchgears & control panels, miniature circuit breakers, distribution boxes, drop forged hand tools and engineering products.

The event aimed to promote trade between India and the countries in ASEAN region who are the major trading partners of India. The event also served as an ideal platform for the Malaysian businessmen to know more about the present scenario of Indian Engineering Industry and its technology advancement. Members of TEEAM participated in the business meeting.

The event concluded with a buffet lunch.

Group photo – Delegates from India posing with VIP guests.

Representatives from TEEAM – (from left) Mr Lee Peng Sian (Member), Mr Suresh Gorasia (Past President) and Mr Radhey Shyam Agrawal (Member).

VIP guests – (front row from left) Mr K R Pandian (Leader of EEPC Trade Delegation), HE Ashok K Kantha (High Commissioner of India to Malaysia), Dato' Syed Amin Aljeffri (President of Kuala Lumpur Malay Chamber of Commerce cum Chairman of ASEAN Business Advisory Council), Mr Mew Jin Seng (Deputy President of The Chinese Chamber of Commerce & Industry of Kuala Lumpur & Selangor) and Mr Sanjay Panda (Counsellor - Economic of High Commission of India).

One-to-one business meeting – Good response from the Malaysian buyers.

State Associations News

Following are the reports of activities submitted by the various State Association Members of TEEAM.

Electrical Association of 3rd, 6th & 7th Divisions, Sibu

No. 6, Lane 4, Kandis Road, Off Maling Road,
96000 Sibu, Sarawak.
Tel: 6084 - 331 460 Fax: 6084 - 346 114
E-mail: sccci@streamyx.com

Self Testing Licence

Electrical contractors who possess Authorised to Test (ATT) licence will carry out testing work from now on. The self testing licence introduced in early 2005 in Sarawak was enforced effective 1st June 2007. SESCO will only provide testing service to those projects before 1st June 2007. This has been practiced in Sibu and Sarikei. SESCO will be responsible for electricity meter and electricity supply application. This was highlighted during a seminar organised by the Electrical Association of 3rd, 6th & 7th Divisions, Sibu on 17th May 2007.

From the record of the Electrical Inspectorate Unit (EIU), there are more than 800 electrical contractor licencees in Sarawak. However there are only 180 Authorised to Test (AAT) licencees. EA 367 Chairman, Mr Hii Hua Chuon urged members to apply for the ATT licence and also to assure good quality services. The responsibility of ensuring safety is now passed on from SESCO to electrical contractors. Officials from EIU and SESCO were present at the seminar which attracted 70 participants.

Souvenir to EIU – (left) En Syed Mohd Fauzi Shahab (Director of Electricity Supply, Ministry of Public Utilities, Sarawak) receiving a souvenir from Mr Hii Hua Chuon (EA 367 Chairman).

Souvenir to SESCO – (left) Cik Siti Aisah Adenan (Regional Manager of Syarikat SESCO Berhad, Central Region) also received a souvenir from Mr Hii Hua Chuon.

Product Presentation

The EA 367 organised a half-day electrical products launching cum networking session on 21st June 2007. The event was initiated by Terasaki Electrical (M) Sdn Bhd. The aim was to understand the characteristics and functions of some electrical products and to exchange essential information on energy saving. Mr Eric C W Tang and Mr Y K Koh were the guest speakers. Members also had the opportunity to network at the event.

Souvenir Presentation – (left) Mr Hii Hua Chuon (EA 367 Chairman) presenting a souvenir to Mr Y K Koh (Manager of Terasaki Electric (M) Sdn Bhd). With them is Mr Eric C W Tang (Marketing Executive of Terasaki Electric (M) Sdn Bhd).

AGM 2007

The EA 367 held its 25th Annual General Meeting on 20th May 2007. The association proposed to change its name to "East Malaysia Electrical Association". They will recruit the other electrical associations in Sarawak and Sabah to join in if their application is approved by the Registrar of Society.

Mr Hii highlighted that they have amended the association's constitution in order for the association to be well-represented. This will help to solve members' problem more effectively. The association intends to publish a safety guide book on electrical works. Relevant government authorities will be invited to provide reliable information. This guide book will serve as an important reference document for members.

Mr Hii further announced that EA 367 will be celebrating its 30th anniversary in November 2008. A dinner souvenir book will be published in conjunction with the occasion. The Association appeals for advertisement support.

Good support – The 2007 AGM in progress.

Study Awards Presentation

An awards presentation was held during the AGM for members' children who excelled in their studies. Awards were presented by EA367 Life Honorary Chairman, Mr Ting Ung Tuang.

Congratulations! – Ms Hii Hie Sang (left) receiving an award from Mr Ting Ung Tuang (EA367 Life Honorary Chairman) for her excellent academic performance in STPM. On the extreme right is Mr Hii Hua Chuon (EA 367 Chairman).

Trade Delegation to China

The EA 367 organised a 20-member trade delegation to visit Ruixin Group's manufacturing plant located in Fujian Province, China. The visit aimed to get first-hand technical know-how. The main products manufactured by the Ruixin group are HV/LV complete set of electrical equipment, cable trays, busduct, wire & cable and electronic parts.

For the album – A group photo of the delegates with officials from Ruixin Group, China.

Social Visit

The Sarawak Electrical Association (SEA) organised social visits to members based in Sri Aman, Sarikei and Sibul from 9th to 12th August 2007. The visit aimed to foster better understanding and closer relationship with members outside Kuching. The members were also introduced to the newly elected SEA Chairman, Mr Bernard Tan Hak Koon. Some pressing issues related to regulatory bodies such as EIU and SESCO were discussed during the visit. SEA is planning for its next visit to Bintulu, Miri, Limbang and Lawas.

Visit to Sri Aman – (5th from left) Mr Bernard Tan Hak Koon (SEA Chairman) and SEA officials posing with members of Sri Aman.

Academic Awards 2007

The Penang Electrical Merchants' Association (PEMA) organised an Academic Awards Presentation on 1st July 2007 at Tanjong Country Club, Penang. Some 46 children of PEMA members and children of their employees received the Academic Excellence Performance certificates and cash totaling RM 7,300. In conjunction with the awards presentation, an educational talk was also conducted to provide advice and motivation to these children. The event concluded with a buffet lunch.

There were 21 recipients for UPSR category, eight recipients for PMR, 11 recipients for SPM and six recipients for STPM.

Courtesy Visit to ST

On 5th July 2007, a 7-member delegation led by PEMA President, Mr Hong Yeam Wah paid a courtesy visit to Ir Md Zakuan Hj Ibrahim (Director of Energy Commission, Northern Region). Mr Hong Yeam Wah highlighted PEMA's activities and some problems faced by members. A souvenir was presented to Ir Md Zakuan Hj Ibrahim by Mr Hong at the end of the fruitful discussion.

Council Meeting

The Perak Electrical Association (PEA) held its 4th Council Meeting on 9th July 2007 at its premises. Some 17 Council Members attended the meeting. At the meeting, the Council decided to hold its 21st Student Academic Achievement Awards on 29th October 2007. PEA is honored to receive sponsorship from its Secretary, Mr Hong Chin Bee of HBE Engineering Sdn Bhd for this year's award.

Moon Cake Festival

On 15th September 2007, a moon cake festival gathering was held at PEA premises. The objective was to foster closer relationship among members.

Bowling Tournament 2007

The annual TEEAM Bowling Tournament was successfully held on 22nd July 2007 at Pyramid Mega Lanes, Sunway Pyramid Shopping Centre. Some 53 men and 38 ladies participated in this year's event.

Thanks to the generous sponsors, namely Chi-Tak Electrical (Sel) Sdn Bhd, Mega Mayang M&E Sdn Bhd, Omron Electronics Sdn Bhd and Systematic Electrical Engineering Sdn Bhd which made this event a success.

The Sports Committee allocated a perfect game prize of RM 3,000 for Men's and Ladies' event, yet there's no taker again for this year. The Committee hoped that more members will support the event next year which is aimed to foster closer relationship among members and employees. The event ended with prize presentation and group photo.

On your mark – Ladies' champion, Ms Yong Sim Min (Omron Electronics Sdn Bhd) getting ready to strike the pins.

5-minute practising time – Bowlers having some practising rounds before roll-off.

"King" Champion – (left) Mr Alex Chan (Systematic Electrical Engineering Sdn Bhd) scored 1,069 pins. He received the Chi-Tak Challenge Trophy and a unit of Omron Automatic Blood Pressure Monitor from Mr David Chong Ah Nyap (TEEAM Vice President).

"Queen" Champion – Ms Yong Sim Min (Omron Electronics Sdn Bhd) receiving the Chi-Tak Challenge Trophy and Omron Automatic Blood Pressure Monitor from Mr Yong Kim Yun (TEEAM Internal Auditor). She scored 582 pins.

Bravo! – A group photo of TEEAM officials and winners.

SMATV Workshop

On 23rd July 2007, a workshop on "Smart Satellite Master Antenna TV System (SMATV) and System Design and Installation Method" was held at TEEAM Conference Room. This workshop was co-organised by EITA Power System Sdn Bhd and CAE-GROUPE Company. It successfully drew a crowd of 60 participants.

The half-day workshop covered the theory of SMATV and technical presentation on its system design as well as installation method. It aimed to provide an understanding on proper satellite master antenna TV system design and installation method. Participants have the opportunities to enrich their knowledge in the aspect of satellite distribution network. The workshop presented a new idea for high rise broadcast solution which is an integration of SMATV and CCTV (Closed-Circuit Television) system for the purpose of residences' convenience, safety concern and quality life.

Good turnout – Participants listening attentively to the presentation.

Speaker, Mr Vincent Garnier – He is the Director of International Development, CAE Groupe, France.

A specialist from CAE-GROUPE Company from France, Mr Vincent Garnier who is also the Director of International Development was invited to share his valuable knowledge and experience with participants. The company specialises in SMATV system and has a team of R7D engineers to keep abreast with in-depth study and research. The workshop ended with an interactive Q & A session.

Promotion of TNB Connection Charges

In conjunction with Malaysia's 50th Merdeka Celebration, Tenaga Nasional Berhad (TNB) is offering a 50% discount on connection charges for users of single phase electricity supply who wish to convert to a three phase supply. The offer is open to domestic and commercial customers only. A three phase electricity supply provides better stability to support additional electricity usage, as well as prevents over-voltage and circuit incidences (caused by overloading). The promotion period is from 1st June 2007 to 31st May 2008. Promotion rates offered are:

No.	Type of Supply	Normal Rate	Promotion Rate
1.	Overhead service	RM 300	Free
2.	Underground cable service		
	60A	RM 1,250	RM 400
	100A	RM 2,250	RM 900

BWI Graduation

Congratulations to the 15 Building Wiring Installer (BWI) trainees who have completed their training at TEEAM Training Centre. A graduation ceremony for this 12th batch of trainees was held on 15th September 2007.

The BWI training programme is a skill standard developed by the Construction

Industry Development Board (CIDB) for construction personnel involved in the low voltage installation of electrical wiring and related electrical equipment. TEEAM has been accredited by CIDB to conduct the BWI training programme since August 2001.

The training is free as it is sponsored by CIDB which is subject to prior approval. Training

lessons are conducted from Monday to Friday, from 10:00 am to 5:00 pm over a period of three months. Trainees who have achieved the skill competency requirement are awarded with a skill competency certificate issued by CIDB.

TEEAM can also help trainees to seek employment at members' firm upon completion of the training.

Congratulations – Chong Hau You receiving his certificate from Dato' Ir Lee Peng Joo (TEEAM President). Looking on is Ir Steven Ng Khoon Hwa (TEEAM Vice President cum Education & Training Chairman).

Proud moment – Trainees with their skill competency certificates posing with TEEAM officials (seated from right) Ir Steven Ng Khoon Hwa (TEEAM Vice President cum Education & Training Chairman), Dato' Ir Lee Peng Joo (TEEAM President) and Mr Ho Khai Hong (TEEAM Council Member cum Excellence Academic Awards Chairman).

Building Wiring Installer Course

Introduction

The Building Wiring Installer training programme is designed for the construction personnel involved in the low voltage installation of electrical wiring and related electrical equipment. It is also a skill standard developed by the Construction Industry Development Board (CIDB) with participation of industrial experts from the public and private sectors. The Course is sponsored by CIDB subject to prior approval.

Course Duration & Language

Training lessons are conducted in Bahasa Malaysia from Monday to Friday, 10:00 am to 5:00 pm, over a period of 3 months.

Course Content

1. Fundamentals of electricity

Series and parallel circuits. Measurement units. Supply sources. Single phase and Three phase.

2. Wiring cables

Types, size, colour code, rating and applications. Conductor and insulator. Current carrying capacity and voltage drop. Types and methods of electrical wiring joint.

3. Protective devices

Fuse, miniature circuit breaker and earth leakage circuit breaker. Overload relay.

4. Read and interpret drawings

Electrical layout diagram. Schematic diagram. Wiring circuit diagram. Electrical symbols.

5. Electrical wiring

Concealed and surface wiring. Conduit and trunking. Surface and flush mounting. Lighting and power final circuits. Consumer terminal unit. kWh meters and earthing system.

6. Installing electrical equipment and appliances

Water heater, door bell, discharge lamp, exhaust fan, distribution board, etc.

7. Use measuring and testing instrument

Voltmeter, ammeter, clamp tester, multi-tester, insulation tester, earth resistance tester, etc. Principle of operations and applications.

8. Practical safety measures

Apply first aid treatment. Hazardous environment. Safe usage of tools and equipment. Report accidents on-site. Acts and regulations.

Certificate

Course participants who have achieved the skill competency requirement will be awarded with a certificate. In addition, a CIDB Green Card will also be issued.
