There are many ways to catch the sun..

Natural Day Light System

With Monodraught Sunpipe technology, we provide total engineering solution, harvesting natural sunlight to illuminate your homes, offices, factories and warehouses at zero energy consumption.

- Zero energy day lighting
- 10 years product warranty
- contribute GBI points
- Zero maintenance

 **Monodraught**

PV Solution Provider

With our in house ISPQ certified professional team, EITA's experience is available throughout the value chain of solar PV project integration. Our services include:

From The Editor's Desk

As we usher in the year of 2013 we are faced with great anticipation on the coming General Election. The political landscape has altered somewhat and it is no longer possible for anyone to predict the outcome of the Election. Therefore the business sentiment is also greatly affected. We shall hope for a fair and safe General Election so that we can be proud of the maturity of the electorate.

The Malaysian economy grew at 5.6% for the whole of 2012 and 6.4% in Q4. Total Private Sector investment has been a main driver of growth. The forecast for 2013 is 4.5 to 5.5 %.

Suruhanjaya Tenaga is revising the Guide for Electrical Wiring 2008. The Wiring Guide has provided good application of RCDs in distribution boards. RCDs provide good and sensitive protection against any leakages of current. However it has been the cause of many unnecessary outages due to nuisance trippings. Correct and appropriate application of RCDs is therefore urgently required to improve the safe distribution of electricity.

TEEAM is embarking on a project to collect and dispose of used CFLs. The disposal of used CFLs currently is not managed properly. In order to prevent the risk of exposure to mercury, it is necessary to collect back used CFLs for recycling.

We wish to congratulate ASEAN ELENEEX 2013 for another good show and we wish them every success in their 10th International Exhibition of Transmission & Distribution and Electrical Engineering for ASEAN.

Regards,

Ir Chew Shee Fuee

Electromagnetic flowmeter type PEM-1000

PEM-1000ALW

PEM-1000NW

Normal size: DN 10DN1000

Accuracy: +/-0.5%

Analog outputs: 0/4...20mA, 0..5mA

Communication protocol: RS 485, RS 232C

Max static pressure: 40bar

Application

Electromagnetic flowmeter for bidirectional measurement of liquids with a minimum conductivity of $\geq 5 \mu\text{S/cm}$:

- Acid, alkalis
- Paints
- Pastes
- Water, wastewater, etc.

Devices for pressure measurement or level measurement in open tank

Hydrostatic level probes

Devices for measurement of difference pressure or level in pressure tanks

Meeting with Suruhanjaya Tenaga

TEEAM held a meeting with Suruhanjaya Tenaga (ST) on 8th November 2012 at ST Building, Putrajaya. Vice Presidents, Mr Yap Ching Kiat & Mr David Chong led the TEEAM delegation, comprising Mr Ho Khai Hong (Honorary Secretary), Mr C T Siew (Council Member), Ir Yong Ah Huat (Council Member) and Mr Tan Eng Liang (Council Member). On hand to receive TEEAM were Datuk Ir Ahmad Fauzi Hasan (CEO of Suruhanjaya Tenaga) and his senior officers. The objective of the meeting was to put forward TEEAM's concern on the following issues:

Market Surveillance on Regulated Products

In the context of the ASEAN MRA and APEC MRA on E & E Equipment (EEE) – Market Surveillance is “the way to go” in a liberalised market. TEEAM intends to play an active role in assisting ST to carry out market surveillance to ensure that:

- (i) the E&E products purchased have successfully passed the appropriate tests with SIRIM stickers attached on the products and,
- (ii) whether the products are compliant with the requirements of the relevant IEC Standards for the sake of public safety.

TEEAM appealed to ST to appoint TEEAM as a Designated Body to carry out Market Surveillance on some or all the 31 categories of controlled items. ST highlighted that there is no provision in the Act for private entity to be appointed as designated body to carry out surveillance/enforcement. However, ST welcomes TEEAM to provide information to the Commission on non-compliant products. ST has assigned SIRIM to collect products from the market to carry out tests to ensure products are compliant.

TEEAM also highlighted the issue of sub-standard wiring cables widely marketed and used, and products which carry fake SIRIM stickers. In response, ST requested TEEAM to notify the Commission if TEEAM should come across any non-compliant activities pertaining to electrical safety as ST is looking for new ways to improve their effectiveness. ST has approached MCMA to ensure their members produce compliant cables. TEEAM also appealed to ST to publicise the list of cases prosecuted so as to alert the public.

LED Products Added to the List of Controlled Items

TEEAM sought ST's clarification on the LED products which were added to the lamp fittings category of the list of controlled items

which take effect from 1st January 2013. TEEAM also requested for customs tariff codes for LED products in order for members to prepare well in advance for customs clearance and the tariff involved.

ST notified that the LED domestic lighting and compact fluorescent lamp (CFL) are fitted with built-in self-ballast. Hence, to comply with the safety standards and performance requirements, ST is controlling such items.

With regards to the customs tariff code, TEEAM requested ST to provide the specific custom codes for the new products. Tariff code is provided by customs to classify commodities when they are being declared at the customs frontiers by exporters and importers. ST advised the manufacturers to apply for certificate of approval from ST soonest possible before the enforcement, as obtaining the test report and CB certificate from recognised testing bodies takes a very long time. TEEAM highlighted that these tests require 2000 – 6000 hrs. Hence, TEEAM appealed for grace period to enable members to prepare themselves.

ST's Competency Exam and TEEAM as an Accredited Training Institution

ST no longer conducts competency exams for Wiremen and Chargemen AO & A1 effective from July 2012. Instead, candidates have to sit for the exam at ST's accredited training institutions. In this case, TEEAM sought ST's approval to designate TEEAM as an accredited training institution to conduct wiremen and chargemen competency exams. TEEAM is able to conduct such exams because TEEAM has been running wiremen training courses since the 80s and also conducting CIDB building wiring installer course.

TEEAM would like to take the initiative to create more wiremen and chargemen to meet the industry's demand. However, ST informed that TEEAM has to collaborate with accredited

Meeting in progress - Issues of concern were highlighted to ST.

Representatives from TEEAM – (from left) Mr Yap Ching Kiat (Vice President), Ir Yong Ah Huat (Council Member), Mr David Chong (Vice President), Mr Ho Khai Hong (Honorary Secretary), Mr C T Siew (Council Member), Mr Tan Eng Liang (Council Member) and Ms Winnie Khong (Executive Secretary).

government institution or government link institution to be recognised by ST as an accredited training and exam centre.

Conclusion

The discussion was fruitful and TEEAM thanked ST for the time and opportunity given to delve on issues of concern.

CEO of ST - Datuk Ir Ahmad Fauzi Hasan chairing the meeting.

ST has on 14th December 2012 announced the deferral of enforcement for the new list of electrical equipment Lampiran A that requires certificate of approval from ST. The enforcement date is deferred from 1st January 2013 to 1st July 2013 for equipment to obtain approval, and market enforcement will begin on 1st January 2014.

The reason for the deferral is test report and CB certificate from recognised testing bodies requires test to be conducted for a duration of 3 – 6 months period. Members can obtain the ST's notification and new list of equipment from the TEEAM Secretariat.

Meanwhile Certificate of Approval can be applied online. Visit www.st.gov.my → ePermit → subscription → register online to be a Dagang Net subscriber to access the ePermit system. You will receive your login ID upon successful registration within two working days. ePermit is provided by Dagang Net to facilitate online application & approval of permits.

TEEAM Diamond Jubilee Dinner

On 8th September 2012, TEEAM celebrated its Diamond Jubilee Dinner at One World Hotel, Petaling Jaya, Selangor with the theme, “TEEAM 60 years of Transformation” which highlighted TEEAM’s transformation and teamwork over the years. YBhg Datuk Loo Took Gee, Secretary General of KeTTHA who represented the Minister of Energy, Green Technology and Water, YB Dato’ Sri Peter Chin Fah Kui, graced the occasion as the Guest of Honour.

A special photography session with unlimited shots was hosted by TEEAM to entertain the dinner guests and members at the foyer while waiting for the VIPs to arrive. There were full of actions at the photography corner which was most exciting and memorable.

To commemorate the 60th anniversary, the dinner began with a video presentation of “TEEAM 60 Years of Transformation” which captured the most treasured memories and achievements of the association since its formation. In his welcome speech, the Organising Chairman, Ir Steven Ng Khoon Hwa who is also the TEEAM Deputy President, thanked and appreciated every effort made by the Organising Committee Members, supporters and all generous sponsors in making this auspicious occasion a resounding success.

In his address, TEEAM President Engr Fu Wing Hoong highlighted TEEAM’s wish list to YBhg Datuk Loo in view of the coming budget meeting. The wish list of TEEAM includes:

- Propose the government to provide up to 90% incentive for the next 3 years for all SMEs to carry out energy audit

TEEAM President – Engr Fu Wing Hoong.

exercise in preparing them for the coming implementation of the Energy Efficiency & Conservation Law (EE & C Law) expected to come into force by end 2013 or early 2014. This will enable them to be energy efficient in their operation, reduce operation cost, and help government in achieving the target of EE goals and cut global warming/ reduce Malaysia’s carbon emission;

- Propose the government to reduce personal and corporate tax to 23%. Our Thailand counterpart trade association informed that Thailand will be reducing their corporate tax to 23% in their coming Budget. Singapore corporate tax is currently at 17% and Hong Kong 15%;
- Propose the government not to wait for the implementation of GST before the reduction of corporate tax. Malaysia’s competitiveness is fast deteriorating if Thailand reduces their corporate tax ahead of Malaysia. Malaysia might fast lose out in both FDI as well as LDI;
- To further boost domestic consumption and help private SMEs to innovate and to move up the value chain, the

VIP 1 – (seated from left) Mr & Mrs Lim Yok Kee (TEEAM Past President), YBhg Dato' Soh Thian Lai (FMM Council Member), Mr & Mrs Wong Chin Cheong (TEEAM Honorary Treasurer), Mr & Mrs Lee Wah (TEEAM Legal Adviser), (standing from left) Mr V Perumal (TEEAM Council Member), Ir Yong Ah Huat (TEEAM Council Member), Ar Saifuddin Ahmad (PAM President) and Mr Liang Kok Boon (TEEAM Council Member).

VIP 2 – (seated from left) Mr Philip Tang Tung Kee (TEEAM Council Member), Ms Theresa Lam (TEEAM Council Member), Mr Jack Soon Lee Hock (TEEAM Asst Hon Secretary), Mr Leong Kam Seng (TEEAM Council Member) and Mr Madhu Nair (KLSICCI President). (standing from left) Mr Beh Hock Heng (MACRA 2nd Vice President), Mr Raymond Choo (RHB Bank), Mr Chey Onn Wah (RHB Bank), Mr Suresh Kumar Gorasia (TEEAM Past President) and Mr Aseem R Mahajan (Deputy High Commissioner of India, Kuala Lumpur).

VIP 3 – (seated from left) Mr Alex Foo (Embassy of Spain Trade Analyst), Ms Hoh Jee Eng (HKTDC Director), Mr Ho Khai Hong (TEEAM Honorary Secretary), Dr Chua Siew Kiat (Secretary General KLSCCCI) and Ar Chan Seong Aun (PAM Deputy President), (standing from left) Mr Ooi Eng Guan (TEEAM Council Member), Ms Jessie Tseng (TTC Director), Ms Tracy Huang (Taipei Economic Office Secretary), Mr William Young (TEEAM Internal Auditor) and Mr Lee Chin Cheok (TEEAM Lecturer).

VIP 4 – (from left) Ms Ainee Cha (ASHRAE President), Mr Matthew Tee (MBAM President), YBhg Dato' Ir Lee Peng Joo (TEEAM Immediate Past President), Ir Nirinder Singh Johl (TNB Distribution GM) and Mr Yap Ching Kiat (TEEAM Vice President).

VIP 5 – (seated from left) Ir G H Liew (TEEAM Past President), Mrs Adeline Wong, Ir Rocky Wong Hon Thang (TEEAM Honorary Fellow cum Technical Adviser), Datuk Phang Ah Tong (MIDA, Deputy CEO II) and Prof Dr Hew Wooi Ping (SWO TC Member-UM). (standing from left) Ir Kok Yen Kwan (MGBC Board Member), Ir Chang Yew Cheong (TEEAM Council Member), Ir Wong Chen Kheong (ACEM Honorary Treasurer), Mr C T Siew (TEEAM Council Member) and Ir Lim Kim Ten (TEEAM SWO TC Member – IEM).

VIP 6 – (seated from left) Mr Surian Rasol (SWO TC Member – SIRIM), Mr Dahari Mat Siran (TEEAM Council Member), Mr K Subramaniam (TEEAM Council Member), Mr David Chong Ah Nyap (TEEAM Vice President) and Mr Tan Long Kee (SWEDA President). (standing from left) Mr Irvin Francis (MATRADE Assistant Manager), Mr Chan Kaim Sam (TEEAM Council Member), Ms Sara Kong (MCMA Executive Secretary) and Mr Abdul Karim Rahman (JPK Senior Assistant Director).

DESIGNED TO AGAINST THE TOUGHEST WHEATHER

Rain Conditions Test

95% insulated proven to be effective during raining condition.

DAT Controller

- Non-radioactive type
- UNE 28116 standard compliance (equivalent to NF C17102)
- Stainless steel body
- State of the art design

Lightning Proof Test

- 100kA current impulse test.

E.S.E terminal support:

With the objective of reaching the proper height, the air terminal can be placed with "state of the art" adapting piece on 3 types of supports:

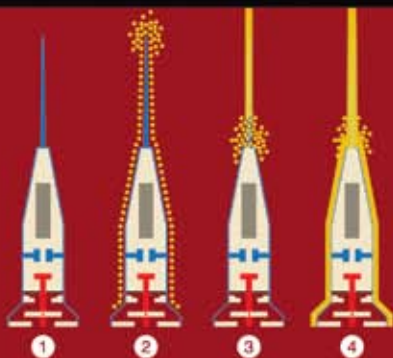

- Side Mounting Mast
- Free Standing Mast
- Tower

Adapting piece

E.S.E terminal: How does it works?

- 1) Stand-by mode in normal weather conditions.
- 2) In stormy conditions, the electropulsating generator activates an alarm mode.
- 3) The upward streamer is triggered in the exact moment. Simultaneously the generator disconnects.
- 4) Lightning flows down the external armature and jumps over the gap on its way to ground.

Flash Captor

- Non-radioactive type
- UNE 28116 standard compliance (equivalent to NF C17102)
- Stainless steel body
- Light weight

14th Meeting of JSC EEE

The Fourteenth Meeting of the Joint Sectoral Committee for Electrical and Electronic Equipment (JSC EEE) was held on 20th to 22nd November 2012 in Yogyakarta, Indonesia. The meeting was chaired by Mr Steven Tan, Group Director of Quality and Standards, SPRING, Singapore and co-chaired by Mr Sathaporn Rungrattanaubol, Senior Standards Officer, Standards Bureau 2, Thai Industrial Standards Institute (TISI), Thailand.

The meeting was attended by representatives from Brunei Darussalam, Indonesia, Lao PDR, Malaysia, Philippines, Singapore, Thailand, Viet Nam, representatives from ACCSQ WG 1, the ASEAN Secretariat and representatives from International Electrotechnical Commission - Asia Pacific Regional Center (IEC-APRC). The representatives of Key Expert on Standards for the ASEAN Regional Integration Support Programme from EU (ARISE) and delegations from Japan Ministry of Trade and Industry and Business Machine Industry Association (JBMIA) were also in attendance. There were a total of 63 delegates of whom eight were from Malaysia represented by ST, SIRIM QAS and TEEAM.

The meeting was officiated by the HE Bayu Krisnamurthi, Vice Minister of Trade, Republic of Indonesia. He extended his

warm welcome to all the delegates of the 14th JSC EEE Meeting to the culture-rich city of Yogyakarta. HE Bayu Krisnamurthi shared the following in his remarks for the JSC EEE Meeting to consider:

- To meet the integration timeline by 2015 noting that ASEAN leaders had agreed to announce the Economic Integration of ASEAN by 31st December 2015. ASEAN is a stable region economically with a large market of 600 million consumers.
- To be mindful of the challenges and differences of Member States in achieving the economic integration of the EEE sector noting that AMS has become more conscious of the ASEAN economic integration and could introduce measures to make sure that their local industries and the consumers are equally protected.
- To take into considerations the technological developments of the products as EEE becomes more advanced in terms of features where it could function as an ICT equipment.
- To take into consideration external parties who are engaging with ASEAN. ASEAN, as a region, has to be mindful of its dialogue partners as key players in the integration initiative. JSC EEE has to take this into consideration in the deliberations and in making decisions.

The meeting witnessed the handover of Chairmanship by Philippines to Singapore, and Co-Chairmanship by Singapore to Thailand. The outgoing Chair expressed his appreciation to the JSC EEE members for the supports extended to him during his term as the JSC EEE Chair.

The meeting went on to discuss the following, among others:

- ASEAN integration initiatives.
- Implementation of measures for the EEE sector in the AEC scorecard.
- Harmonisation of standards & listing of CAB under ASEAN EEMRA.
- Technical regulations to enhance transparency.
- ASEAN harmonised EEE regulatory regime
- Cooperation with international organisations and dialogue partners.

The delegates expressed their appreciation to the Ministry of Trade, Republic of Indonesia for the warm hospitality and excellent arrangements made for the meeting. The meeting also thanked the ASEAN Secretariat for the assistance provided. Held in the traditional spirit of ASEAN cordiality and solidarity, everyone had a wonderful and memorable stay in Yogyakarta.

For the album – A group photo of all the delegates.

Opening ceremony – HE Bayu Krisnamurthi (Vice Minister of Trade, Republic of Indonesia) delivering his opening remarks.

Meeting in progress – Delegates engrossed in discussion.

All smiles – (from left) Mr Dennis Chew (IEC-APRC Representative) Ir Yong Ah Huat (TEEAM Council Member), Mr Shahidan Baharom (ST Official), Ir Rocky H T Wong (TEEAM Honorary Fellow & Technical Adviser) & Mrs Adeline Wong.

MS IEC 60364 Outreach Conference

TEEAM in collaboration with MCMA successfully organised the “MS IEC 60364 Outreach Conference on Electrical Installations on Buildings & Electric Cable Designs and Standards” from 10th to 12th September 2012 at the Shah Alam Convention Centre, Selangor.

The conference was well managed by iKnowledge and supported by Suruhanjaya Tenaga (ST). YBhg Datuk Ir Ahmad Fauzi Hasan (CEO of Suruhanjaya Tenaga) was present to give an opening speech and officiate the conference. Engr Fu Wing Hoong (TEEAM President) and YBhg Dato' Dr Abdul Razak Abdul (MCMA President) were also present to give their keynote addresses.

The distinguished speakers were Ir K T Lim (TEEAM SWO Technical Committee

Member), Mr Lokman A Dahlan (SWO Chairman on Cables and Cable Accessories & MCMA Technical Adviser), Ir Tan Chow Heang (Principal Technical Expert, Underground Cable Performance & Diagnostic, TNB Distribution) and Mr Ng Choon Guan (Managing Director of Conway Terminals Manufacturer Sdn Bhd).

The speakers gave very comprehensive presentations on the following topics during the three-day conference:

- Introduction of Electrical Regulations & Standards
- Electrical Safety – Electrical Hazards & Protection
- Earthing Systems
- Electrical Protection I
- Electrical Protection II

- Installation & Erection
- Inspection & Testing
- Special Locations
- Electric Cables by Design
- Malaysian Standards on Electric Cables
- Malaysian Standards on Cable Lugs
- MV Underground Cable System

Ir Rocky H T Wong (TEEAM SWO Chairman & Technical Adviser) spoke on “The Realities of 2015 - The ASEAN Economic Community (AEC) - An Alert to Malaysian Engineers and other Engineering Services Professionals (ESPs)” on the last day of the conference.

The event ended with a panel discussion and Q&A session chaired by Ir Rocky H T Wong. The conference attracted an overwhelming participation of 150 people.

A token of appreciation – (centre) Datuk Ir Ahmad Fauzi Hasan (CEO of Suruhanjaya Tenaga) receiving a souvenir from Engr Fu Wing Hoong (TEEAM President).

Opening ceremony – VIPs seated at the front row.

Panel discussion – (from left) Mr Ng Choon Guan (Managing Director of Conway Terminals Manufacturer), Ir Tan Chow Heang (Principal Technical Expert, Underground Cable Performance & Diagnostic, TNB Distribution), Ir Rocky H T Wong (TEEAM SWO Chairman & Technical Adviser) and Ir K T Lim (TEEAM SWO Technical Committee Member).

During tea time – (from left) Ir K T Lim (TEEAM SWO Technical Committee Member), Ir Rocky H T Wong (TEEAM SWO Chairman & Technical Adviser), Engr Fu Wing Hoong (TEEAM President), Mr K C Wong (ICASEA Country Manager) and Ir Chew Shee Fuee (TEEAM Vice President).

TEEAM at PES 16th Anniversary Dinner

The Sabah Electrical Association (PES) celebrated its 16th anniversary on 19th January 2013. A grand dinner for 100 tables was successfully organised at the Hakka Association Building in Likas, Kota Kinabalu. A delegation of 32 members from TEEAM attended the dinner at the invitation of PES. It was a good occasion to build stronger bond with members of PES and to exchange market information.

The Guest of Honour was YBhg Tan Sri Datuk Dr Ahmad Tajuddin Ali, Chairman of Suruhanjaya Tenaga. Highlights of activities for the night were presentation of a cheque to Palliative Care, book prizes to ten recipients from universities & training institutions, lion dance, lucky draws and singing performances.

It was a memorable occasion for old friends to catch up and to meet new acquaintances for business exploration.

For the album – PES Council Members taking group photo at the anniversary dinner with VIP guests.

Welcome – Arrival at Kota Kinabalu International Airport.

Congratulations! – Mr T Sundararaju won the lucky draw and received a prize from Mr Chung Kee Hung (PES Past President).

Smiles – (seated from left) TEEAM Council Members, Spouse and Secretariat: Mr Lim Chun Ngee and Mr Fong Mun Loon. (standing from left) Mr Ooi Eng Guan, Ir Chang Yew Cheong, Ms Clover Tay, Mr Wong Chin Cheong, Ms Sherly Cheong and Mr Chong Yoon Koon's family.

Cheers – TEEAM Council Members, Spouse & Staff: (from left) Mr & Mrs Tan Eng Liang, Mr T Sundararaju, Mr V Perumal, Ms Thila, Mr K Subramaniam, Mr Dahari Mat Siran and Ms Theresa Lam.

VIP table – (from left) Tan Sri Datuk Dr Ahmad Tajuddin Ali (ST Chairman), Mr Woo Soo Poo (PES President), Engr Fu Wing Hoong (TEEAM President) and Mr Mohamed Zulfikar Ahmad (PES Dinner Organising Chairman).

Officials from TEEAM, SEA & PES and Staff – (seated from left) Mr Sim Meng Chung, Mr David Chong, Mr Wong Chin Cheong, Mr & Mrs Rocky Wong, Ir Steven Ng and Mr Yap Ching Kiat. (standing from left) Ms Thila, Mr Francis Chew, Mr Ho Khai Hong, Mr C T Siew, Mr Leonard Choong, Ms Theresa Lam, Engr Fu Wing Hoong, Ms Winnie Khong, Mr Mohamed Zulfikar Ahmad and Mr Chan Kaim Sam.

Council Meeting in Kota Kinabalu

The TEEAM Council held a meeting in Kota Kinabalu during its networking trip to Sabah to attend the PES anniversary dinner. The meeting was hosted by PES at its premises on the morning of 19th January 2013. It was a good networking trip to establish working relationship with members of PES. Fellowship golf was also arranged by PES at the Dalit Bay Golf & Country Club for the golfers.

During the short 3-day trip, Council members visited the Monkey Tops Safari which is a wetland forest enriched with wildlife such as proboscis monkeys, long tail macaques, crocodiles, fireflies and many species of birds. A trip to the Mari-mari Cultural Village was also arranged where one can experience the rich culture of Sabahan ethnic communities such as Bajau, Lundayeh, Murut, Rungus and Dusun. The Council members also took on an exciting island hopping boat trip to Manukan and Sapi islands. It was fun filling with swimming and snorkeling activities carried out along the white sandy beaches fringed by calm crystal clear water.

TEEAM President, Engr Fu Wing Hoong expressed his gratitude to PES for the warm hospitality and all the arrangements. Everyone certainly had a great stay in the Land Below The Wind!

PES office at Beverly Hills, KK – (from left) TEEAM Council Members: Mr Yap Ching Kiat, Ir Steven Ng, Engr Fu Wing Hoong, Mr David Chong, Mr Fong Mun Loon and Mr Ho Khai Hong.

Home made – Making traditional cigarettes.

Exciting – Mr Ho Khai Hong (TEEAM Honorary Secretary) trying lansaran (wooden trampoline) in Murut headhunter longhouse.

PES Fellowship Golf – (from left) Tan Sri Datuk Dr Ahmad Tajuddin Ali (ST Chairman), Datuk Mohd Nasir Ahmad (ST Board Member) & Engr Fu Wing Hoong (TEEAM President).

For the album – TEEAM Council Meeting in progress.

Tattoo – A demo of the traditional method to make a tattoo on Mr Wong Chin Cheong (TEEAM Honorary Treasurer).

TEEAM Scholarship Award

Scholarship! It's an encouraging award by way of financial aid for students who wish to pursue their further education. Over the years, TEEAM has been playing an integral role in helping the eligible students (TEEAM member's children) who are pursuing full time degree courses in Electrical and/or Electronics Engineering at local public or private universities/institutions of higher learning in Malaysia to achieve their goals.

TEEAM is proud to present a scholarship award of RM 6,000 per year to Mah Chee Weng (See Kwong Electric (KL) Sdn Bhd) starting 2012/2013 session. Mah Chee Weng is currently pursuing a degree course in Bachelor of Electrical & Electronics Engineering at The University of Nottingham Malaysia Campus.

A mock cheque presentation ceremony was held during the Council meeting on 24th October 2012 at TEEAM. Engr Fu Wing Hoong (TEEAM President) and Mr Leonard Choong (TEEAM Scholarship & Academic Excellence Awards Chairman) presented the mock cheque to the recipient. Congratulations and good luck to our scholar!

***Congratulations!** – Mah Chee Weng receiving a mock cheque from (left) Mr Leonard Choong (TEEAM Scholarship & Academic Excellence Awards Chairman) and (right) Engr Fu Wing Hoong (TEEAM President). Next to him is his proud father, Mr Mah Chin Heng.*

MEGA MAYANG M&E SDN. BHD.

(Co. No: I60210-W)

We provide a one stop Mechanical & Electrical Solution in:-

- Electrical HT Services
- Electrical LV Services
- Extra Low Voltage Services
- Special Lighting Control
- Telephone and Networking Services
- Air Conditioning & Ventilation Services
- Fire Fighting & Protection Services
- Plumbing & Sanitary Services
- Cold and Hot Water Piping Services
- General Mechanical Services

Registration With Authorities:-

- * Suruhanjaya Tenaga- Class 'A'

- * PKK Kelas I Kepala VII
- * Kementerian Kewangan Malaysia
- * Tenaga Nasional Berhad
- * Lisence Plumber For SYABAS & DBKL
- * ISO 9001 : 2008

Courtesy Visit by KECA

TEEAM was visited by two Research Officers from the Korea Electrical Contractors Association (KECA) on 6th December 2012. They were Mr Lee Byeong-Woong (Team Manager, Planning Department) and Mr Baik Dong Gu (Section Chief, Planning Department). On hand to receive the delegates were TEEAM Officials, Ir Steven Ng Khoon Hwa (Deputy President), Ir Chew Shee Fuee (Vice President), Mr Ho Khai Hong (Honorary Secretary), Mr Suresh Kumar Gorasia (International Affairs Chairman & Past President), and Mr William Young Chee Keong (Trading Committee Member).

KECA hopes to promote sustainable development of the electrical construction

business for its members. The purpose of their visit was to obtain information on the E & E market size and to explore joint venture opportunities in Malaysia for their members. The discussion focused on key issues including E & E market overview, construction statistics, foreign & local labour force and labour cost. The delegates had the

opportunity to have an in-depth exchange of views on important strategic issues concerning the E& E industry.

The discussion was fruitful with interesting market information being exchanged. The KECA guests thanked TEEAM for the time and opportunity given.

Let's get things moving...

No matter how much time spent planning a build, there are always sockets in the wrong place, and some that are simply never used at all.

Well times have changed. And power and data access for the world has moved on. Now you needn't worry about getting the position right first time, as once installed, Mainline allows your clients to move power and data access points at will.

Imagine the time saved on planning and installing...

Imagine the satisfaction and amazement from your client...

Imagine the flexibility & freedom in your clients home or workspace...

We did. That's why we invented it.
