From The Editor's Desk

The EW-CFL-FL Collection Drive has taken a greater stride with the positive support accorded by the Selangor State Government and Selangor local authorities.

MyCIE, in partnership with Philips and Giant Hypermarket, launched a nationwide trade-in programme called 'SAVE THE EARTH CAMPAIGN', where consumers were able to trade in their used Compact Fluorescent Lamps (CFLs) or Fluorescent Lamps (FLs), and be instantly rebated RM5 on selected Philips LED Tubes or Bulb products, at the participating Giant Hypermarkets, from 15th February 2017 to 31st May 2017.

Members of TEEAM are making more Business Visits, and also participating in Overseas-organised Exhibitions. We sincerely hope for more business opportunities to ensue for all.

Our TEEAM 2017 AGM will be held on 21st May 2017 at the Armada Hotel in Petaling Jaya. New Office Bearers will be elected for the 2017-2019 Session.

TEEAM will be honoured to be the host for the AFEEC-FAPECA Conference & Meeting this year, to be held at the Kuala Lumpur Convention Centre from 11th to 13th October 2017. It will co-incide with the IGEM 2017 International Greentech and ECO Products Exhibitions. We are expecting many delegates from Singapore, Thailand, Philippines, Indonesia, Hong Kong, Taiwan, South Korea, Australia and New Zealand to attend these events.

The official 2017 GDP growth forecast for Malaysia, as announced by Bank Negara in March 2017, currently stands at a range of between 4.3% and 4.8%.

There is now a greater momentum on INDUSTRY 4.0 and this is a great opportunity for the electrical and electronics industry to pro-actively march forward!

Regards,

Ir Chew Shee Fee KMN

HARDWARE / TOOLS

EW, CFL & FL Recycling Programme

Proper disposal of e-waste (or EW), lamps and batteries, do help to prevent environmental degradation and avoids potential threats to human health. It minimises the possibility of spreading diseases while it maximises the rate of decomposition. In view of this, MyCIE in partnership with Philips and Giant Hypermarket, launched a nationwide trade-in programme called 'SAVE THE EARTH CAMPAIGN', where consumers were able to trade in their used Compact Fluorescent Lamps (CFLs) or Fluorescent Lamps (FLs) and be instantly rebated RM5 on selected Philips LED Tubes or Bulb products at the participating Giant Hypermarkets, from 15th February 2017 to 31st May 2017. To facilitate this nationwide trade-in programme, Giant had made available collection bins at 50 stores around the Klang Valley and other regions. This programme was introduced to educate the public on the importance of disposing used lamps in a more environmental-friendly manner, and also to be smart consumers by switching to affordable and eco-friendly Philips LED solutions which can save up to 55% of energy consumption!

As part of an on-going activity to reduce harmful chemicals seeping into the ground, MyCIE took part in the E-waste Collection Drive organised by the Leo Club at Monash University Sunway, from 21st to 23rd March 2017. The public awareness event aims to promote the recycling of e-waste, reduce waste on the campus grounds and also to promote a clean plus environmentally-conscious campus. The response from students was very encouraging as many of them brought in their unwanted electrical items for proper waste disposal.

Moving towards a toxic-free future, the Selangor State Government collaborated with MyCIE-TEEAM to strengthen the sustainable model for EW, CFL and FL Recycling. On 26th March 2017, YB Elizabeth Wong, EXCO for Tourism, Environment, Green Technology & Consumer Affairs (Selangor State Government) and Ir Chew Shee Fuee KMN, TEEAM President, dropped used Fluorescent Lamps into

the collection bin and heralded the start of co-operation between the Selangor State Government and MyCIE-TEEAM, with the noble view to share the responsibility to collect back the pollutants. The event was held in conjunction with Art for Grabs at The School, Jaya One. MyCIE also opened a booth for two days to create awareness among the shoppers.

Joint EW, CFL & FL Recycling – (right) YB Elizabeth Wong, EXCO Member of Selangor State Government at a Launch to make the start of co-operation between Selangor State Government, MyCIE and TEEAM. Ir Chew Shee Fuee KMN (TEEAM President) was present too.

Generating a positive media exposure for recycling is a great way to reinforce support for our recycling programmes. In this regard, MyCIE has sought the support of the Press/Media to get its message across to the public. On 11th April 2017, the EW, CFL and FL Recycling Programme Organising Chair, Dr Tan Ching Seong, was interviewed by The STAR Metro Team on the proper disposal method of e-waste. In the interview, Dr Tan said that there was a lack of awareness among the public coupled with poor management by the local authorities. As such, the country urgently needed a regulatory framework for e-waste management and implementation of a mandatory take-back system to prevent this looming crisis from rearing its ugly head!

Please visit MyCIE website at www.mycie.org.my for the latest news and happenings!

EPRE 2017

The Electric, Power & Renewable Energy Malaysia (EPRE) 2017, a showcase of the most current innovations and initiatives in the Power and Renewable Technologies industry for the ASEAN region, was successfully held from 15th to 17th March 2017 at the Kuala Lumpur Convention Centre.

The opening ceremony was officially graced by the presence of Deputy Minister, Ministry of Energy, Green Technology and Water (KeTTHA), YB Senator Dato' Sri SK Devamany Krishnasamy. During his opening speech, he highlighted that over 90% of our national electricity supply is still derived from fossil fuels, with a minimal amount coming from Renewal Energy (RE) sources like hydro, biomass from oil palm plantations and biogas from palm oil mills. In 2016, it was announced that Sabah is home to the country's first geothermal power plant based in Tawau. The 30MW geothermal power plant is scheduled to be operable by June 2018 and this will place Malaysia in 16th position in the world with respect to geothermal energy generation.

Opening ceremony – YB Senator Dato' Sri SK Devamany Krishnasamy, Deputy Minister of KeTTHA, officiating the showcase by hitting a gong.

Supportive TEEAM delegates – (from left) Mr Andrew Lu (Council Member), Mr Subramaniam Karuppan (Vice President), Mr Suresh Kumar Gorasia (International Affairs Chairman & Past President) and Mr How Chee Seng (Council Member) were present at the opening event.

Fellowship – VIPs sharing a light moment at EPRE 2017.

TEEAM, together with some of its members, supported the show as exhibitors. Apart from Malaysian companies, EPRE also attracted international exhibitors from over twenty countries. This included national pavilions from China, Korea and Taiwan. EPRE 2017 was more than just an exhibition. The 3-day event included a variety of Tech Talks and B2B Business-Matching Sessions. The event drew local business and trade visitors and also those from abroad.

The event provided an interactive platform for the related industries to meet together, network and keep abreast with the changing technologies. On behalf of the Council, TEEAM wishes to extend its gratitude to the Organiser, Malaysian Exhibition Services, for hosting TEEAM's meetings during the show.

Visitor's Lucky Draw – Mr Andrew Lu (TEEAM Council Member) won an attractive prize on Day-1 of the show.

Establishing a win-win network – Officials from TEEAM and Taiwan Trade Centre (TAITRA).

At the Korean Pavilion – (2nd from left) Mr Suresh Kumar Gorasia (TEEAM International Affairs Chairman & Past President) posing with the Korean exhibitors. On his right is Mr Lee Hai-Chin (KOEMA Board Member & Vice President of CTech). CTech supplies CT & PT for Control Panels.

Thoughtful discussion – TEEAM Council Meeting was conducted at the Kuala Lumpur Convention Centre on 17th March 2017.

LPS® EI Isolated Lightning Protection System

The advanced electrically-isolated protection system that protects effectively against lightning induced surges

The LPS® EI Isolated Lightning Protection System is a comprehensive protection set-up that protects effectively against lightning induced surges. The system is designed with an unprecedented blueprint carefully brought to you by Lightning Protection System Sdn. Bhd. (LPS).

With more than 40 years in the industry, its founder has successfully created a state-of-the-art lightning protection system that delivers unsurpassed functionality, consistency and long-term reliability. The LPS® EI 200 Isolated Lightning Air Terminal was tested in a laboratory in France for its performance and superior results were obtained.

The LPS EI 5038 Lightning Cable completes the task of conveying the lightning current to ground safely.

Together with its well-trained support staff, LPS provides professional service and solutions that match your ever demanding needs. Call LPS today.

***Your peace of mind –
it's worth protecting too***

Seminar on Earth Leakage Protection & Nuisance Tripping

A half day Seminar on “Earth Leakage Protection & Nuisance Tripping” was organised by TEEAM on 3rd April 2017 at the TEEAM Conference Room.

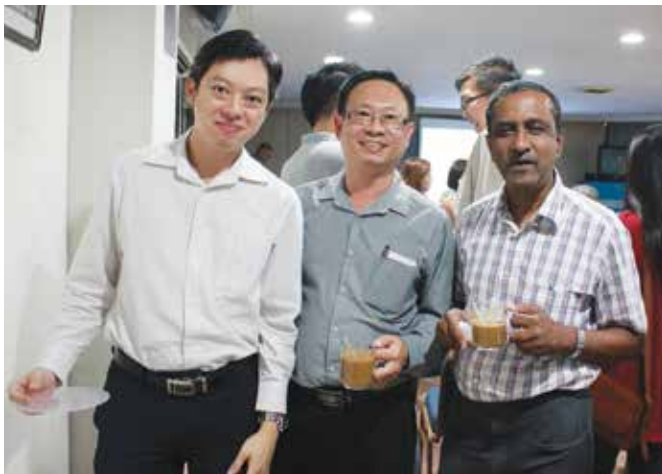

Earth Fault Protection is undoubtedly one of the most fundamental personal safety protections in the electrical system. This life saving protection principle has enabled leakage protection, extending to also providing personal safety protection. An RCD/RCCB, that is, Residual Current Device or Residual Current Circuit Breaker, is a life-saving device which is designed to prevent humans from getting a fatal electric shock if one were accidentally touch something live, such as a bare wire. It (the RCD/RCCB) can also provide some protection against electrical fires in the final distribution circuits.

This important safety seminar focused on the RCD/RCCB implementations and the difficulties involved when RCDs/RCCBs are deployed. Ir Chew Shee Fuee KMN, who is TEEAM President, was the distinguished speaker. He has over 36 years of industry experience in electrical controls and relay protection. It was an enlightening and interactive seminar which attracted a

full house of 60 participants from industry. This seminar truly benefited all the participants and each one of them gladly received a certificate of attendance with approved CIDB CCD points and BEM CPD hours.

Distinguished speaker – Ir Chew Shee Fuee KMN (TEEAM President) freely sharing his life-saving knowledge and vast industry experience.

For the album – Professional Engineers: (from left) Ir Roger Wong (IEM), Ir Chang Yew Cheong (TEEAM) and Ir Francis Xavier Jacob (IEM).

Members' support – Participants from Utama Switchgear Sdn Bhd.

Good response – Participants captivated by the interesting explanation during the seminar.

Thank you – (left) Ir Chew Shee Fuee KMN (TEEAM President) received a token of appreciation from Ir Chang Yew Cheong (TEEAM Vice President).

Courtesy Visits to HKECA & IET, Hong Kong

TEEAM Officials visiting the Hong Kong Spring Lighting Fair 2017 took the opportunity to make a courtesy visit to the Hong Kong Electrical Contractors' Association (HKECA) on 5th April 2017. Mr Suresh Kumar Gorasia (International Affairs Chairman & Past President) led an 8-member delegation to HKECA. On hand to receive them was Mr Emil Yu (HKECA President) and his EXCO members. The visit aimed at providing a good networking platform and to explore business opportunities with HKECA members. They shared crucial market information, the latest trends of the electrical engineering construction industry and the many activities of HKECA and TEEAM. Both parties had very fruitful discussions. The courtesy visit capped off with a sumptuous dinner hosted by HKECA.

Earlier, the delegation also paid a brief courtesy visit to The Institution of Engineering & Technology (IET) Hong Kong. They were warmly received by Ms Winnie Lee (IET Community Relationship Manager, Asia Pacific). There was a good exchange of information on both organisations' operations, memberships and activities.

Good networking – (from left) Mr Suresh Kumar Gorasia (TEEAM International Affairs Chairman & Past President), Dr Ng Kok Chiang (TEEAM Trading Committee Member), Ms Winnie Lee (IET Community Relationship Manager, Asia Pacific), Ir Chang Yew Cheong (TEEAM Vice President) and Mr Ooi Eng Guan (TEEAM Publication Chairman & Council Member).

Warm Reception by HKECA

AFEEC-FAPECA Conference & Meeting 2017 in Kuala Lumpur

TEEAM is greatly honoured to host the 2017 Conference and Meeting of the ASEAN Federation of Electrical Engineering Contractors (AFEEC) and the Federation of Asian Pacific Electrical Contractors Associations (FAPECA) in Malaysia. This AFEEC-FAPECA grand event will be held from 11th to 13th October 2017 at the Kuala Lumpur Convention Centre.

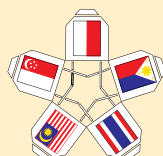

This Conference and Meeting is expected to draw active participation from the National Associations of 10 countries, including the Association of Indonesia Electrical and Mechanical Contractors (AKLI), Korea Electrical Contractors Association (KECA), Singapore Electrical Contractors and Licensed Electrical Workers Association (SECA), Society of Philippines Electrical Contractors & Suppliers (SPECS), Taiwan Electrical Contractors Association (TECA), Hong Kong Electrical Contractors Association (HKECA), Thai Electrical & Mechanical Contractors Association (TEMCA), National Electrical and Communications Association (NECA), Australia, Electrical Contractors Association (ECA) New Zealand, and TEEAM Malaysia. Special invitations will be extended to bring in delegates from Myanmar, Vietnam, Cambodia and Laos as well!

The TEEAM Organising Committee invites full support and sponsorship from all TEEAM Members for this grand event which

provides excellent networking opportunities for business entities and also excellent exposure to the ASEAN and Asia-Pacific electrical engineering fraternities.

We sincerely look forward and are committed to ensure the grand success of this TEEAM-organised AFEEC-FAPECA grand event!

For further details regarding your Company's pro-active participation and/or your Company's generous sponsorship in this AFEEC-FAPECA Conference & Meeting 2017, do not hesitate to contact the TEEAM Secretariat at teeam52@gmail.com.

Self-Test RCCB Safety Campaign

It will be a continuous effort on the part of TEEAM to raise safety awareness among the general public on the importance of self-testing their RCCBs (Residual Current Circuit Breakers) at home. This is the noble commitment of TEEAM and an important Corporate Social Responsibility (CSR) programme to instill Safety-First and Safety-Always among the general public.

In conjunction with the Earth Hour 2017 Event, TEEAM was invited to participate in an Art Bazaar Mini Fest which was held on

the 25th and 26th March 2017 at The School, Jaya One Shopping Mall, Petaling Jaya. TEEAM took the golden opportunity to promote its Self-Test RCCB to the public at a specially designated booth. The fest was organised by the Art for Grabs Community, with a series of feature programmes such as book launches, workshops, performances, green handy-crafts stalls and talks. It was a highly interesting platform for hipsters, professionals, families, activists and art lovers to share and exchange their ideas. The event was very successful, with a good crowd visiting throughout the 2-day fest.

Educational Talk – An interesting talk on reducing the use of plastics in our daily lives.

Show of support – (centre) Ir Chew Shew Fuee KMN (TEEAM President) posing with the Electrical Safety Committee/Council Members: Mr How Chee Seng and Mr Leong Kam Seng (right).

Understanding Home Safety – TEEAM's RCCB Committee explaining to the public through the usage of a Self-Testing RCCB demo panel.

We are specialize in 6 Environmental Sectors

Creating Lighting Image
Developing Future....

From a small humble distributor in lighting since 1987, Gruppe Lighting Solution Sdn. Bhd. has come a long way and today we are a well know Lighting Solution Provider and Lighting Manufacturer. From a trading company to a leading manufacturer over the years, Gruppe has been well known for the commitments and specialty in lighting products giving the latest technology to meet the demand of today's world taking the energy efficiency and performance optimizing into consideration.

Hong Kong Spring Lighting Fair 2017

The 9th Hong Kong International Lighting Fair (Spring Edition) 2017 was held from 6th to 9th April 2017 at the Hong Kong Convention and Exhibition Centre (HKCEC). Organised by the Hong Kong Trade Development Council (HKTDC), the four-day Spring Lighting Fair recorded a total of 1,340 exhibitors from 13 countries and regions, and welcomed close to 21,000 buyers from 115 countries and regions – a truly impressive and record-breaking 5.8% increase over the previous year! The total floor space taken up was a whopping 30,081 sqm, which spoke volumes about the significance and great potential of this Fair to industry players.

The major Exhibit Categories included:

- Advertising Display Lighting, Avenue of Chandeliers,
- Business of IP Zone, Commercial Lighting, Decorative Lighting, LED & Green Lighting,
- Lighting Accessories, Parts & Components, Outdoor Lighting, and Trade Service & Publications.

HKTDC commissioned an independent on-site Survey during the fair, interviewing more than 373 exhibitors and buyers on their views regarding industry prospects. The revealing Survey found that 95 per cent of respondents expected overall sales of products to increase or remain unchanged this year, up 31 percentage points from last year's results. As for product trends, the respondents considered Lighting Accessories, Parts & Components to be the product sector with the highest growth (38%) potential, followed by LED & Green Lighting (18%), Household Lighting (18%) and Smart Lighting & Solutions (9%). On the impact of traditional markets, the respondents were most optimistic about North America, Western Europe and Hong Kong. As for emerging markets, the respondents believed that the Chinese mainland, ASEAN countries, the Middle East and Latin America have the best growth prospects this year.

Ninety two per cent of respondents said that they believed "Smart City and Smart Home" Technologies will drive development of the lighting industry in the next two years. The highest growth potential was seen in Household Lighting Systems that can be controlled by Smart Phone/Tablet Applications, and in Smart Lighting Systems primarily with energy-saving capabilities, for household, industrial, and/or commercial applications.

The Survey indicated that the industry was optimistic about the lighting market's outlook for the coming year, with positive expectations of persistent demand for Smart Lighting and substantial

Cheers! – (from left) Mr Mijhail Pozhilov (Development Director, JSC Palantir, Russia), Mr Suresh Kumar Gorasia (TEEAM International Affairs Chairman & Past President), Mr Benjamin Chau (HKTDC Deputy Executive Director), The Hon Wu Chi-Wai (Member of Legislative Council and Chairman of Panel on Commerce & Industry, Hong Kong), Mr Kai Clarke (Vice President of Sales and Marketing, VIRIBRIGHT Lighting Inc) and Mr Gil Riemenschneider (Head of Space Improvement Projects, RATP Group, France).

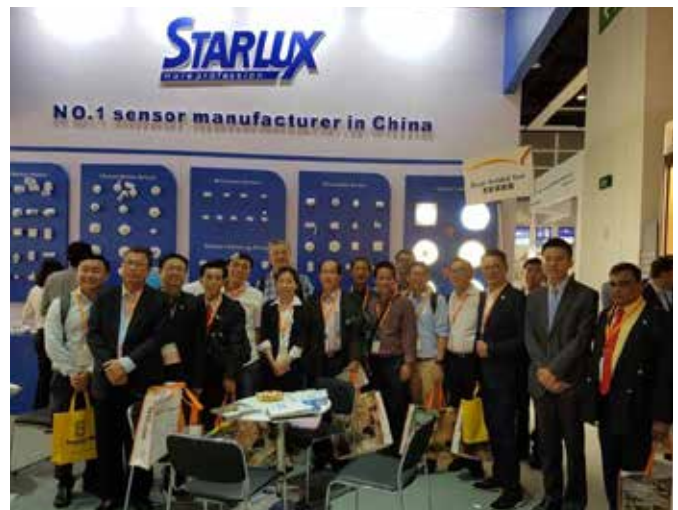

growth in the promising LED and Green Lighting sectors. The "Smart Lighting & Solutions" Zone was a new entry this year to showcase the latest Smart Lighting Systems, Remote Controls and Products, while "LED and Green Lighting" remained the Fair's crowd-puller by way of being the largest thematic Zone, attracting more than 450 suppliers. These Zones offered high quality products catering to the latest market needs and consumer demands.

TEEAM organised an 18-member strong contingent to visit the Fair to source for new products and solutions. The TEEAM Delegation was warmly received by representatives from HKTDC. The delegates were very impressed with the displays of the latest technology applications in lighting. A wide range of Buyer Forums were also held at the Fair to discuss the latest and emerging trends in the global lighting industry. There were very interactive discussions among the speakers and visitors.

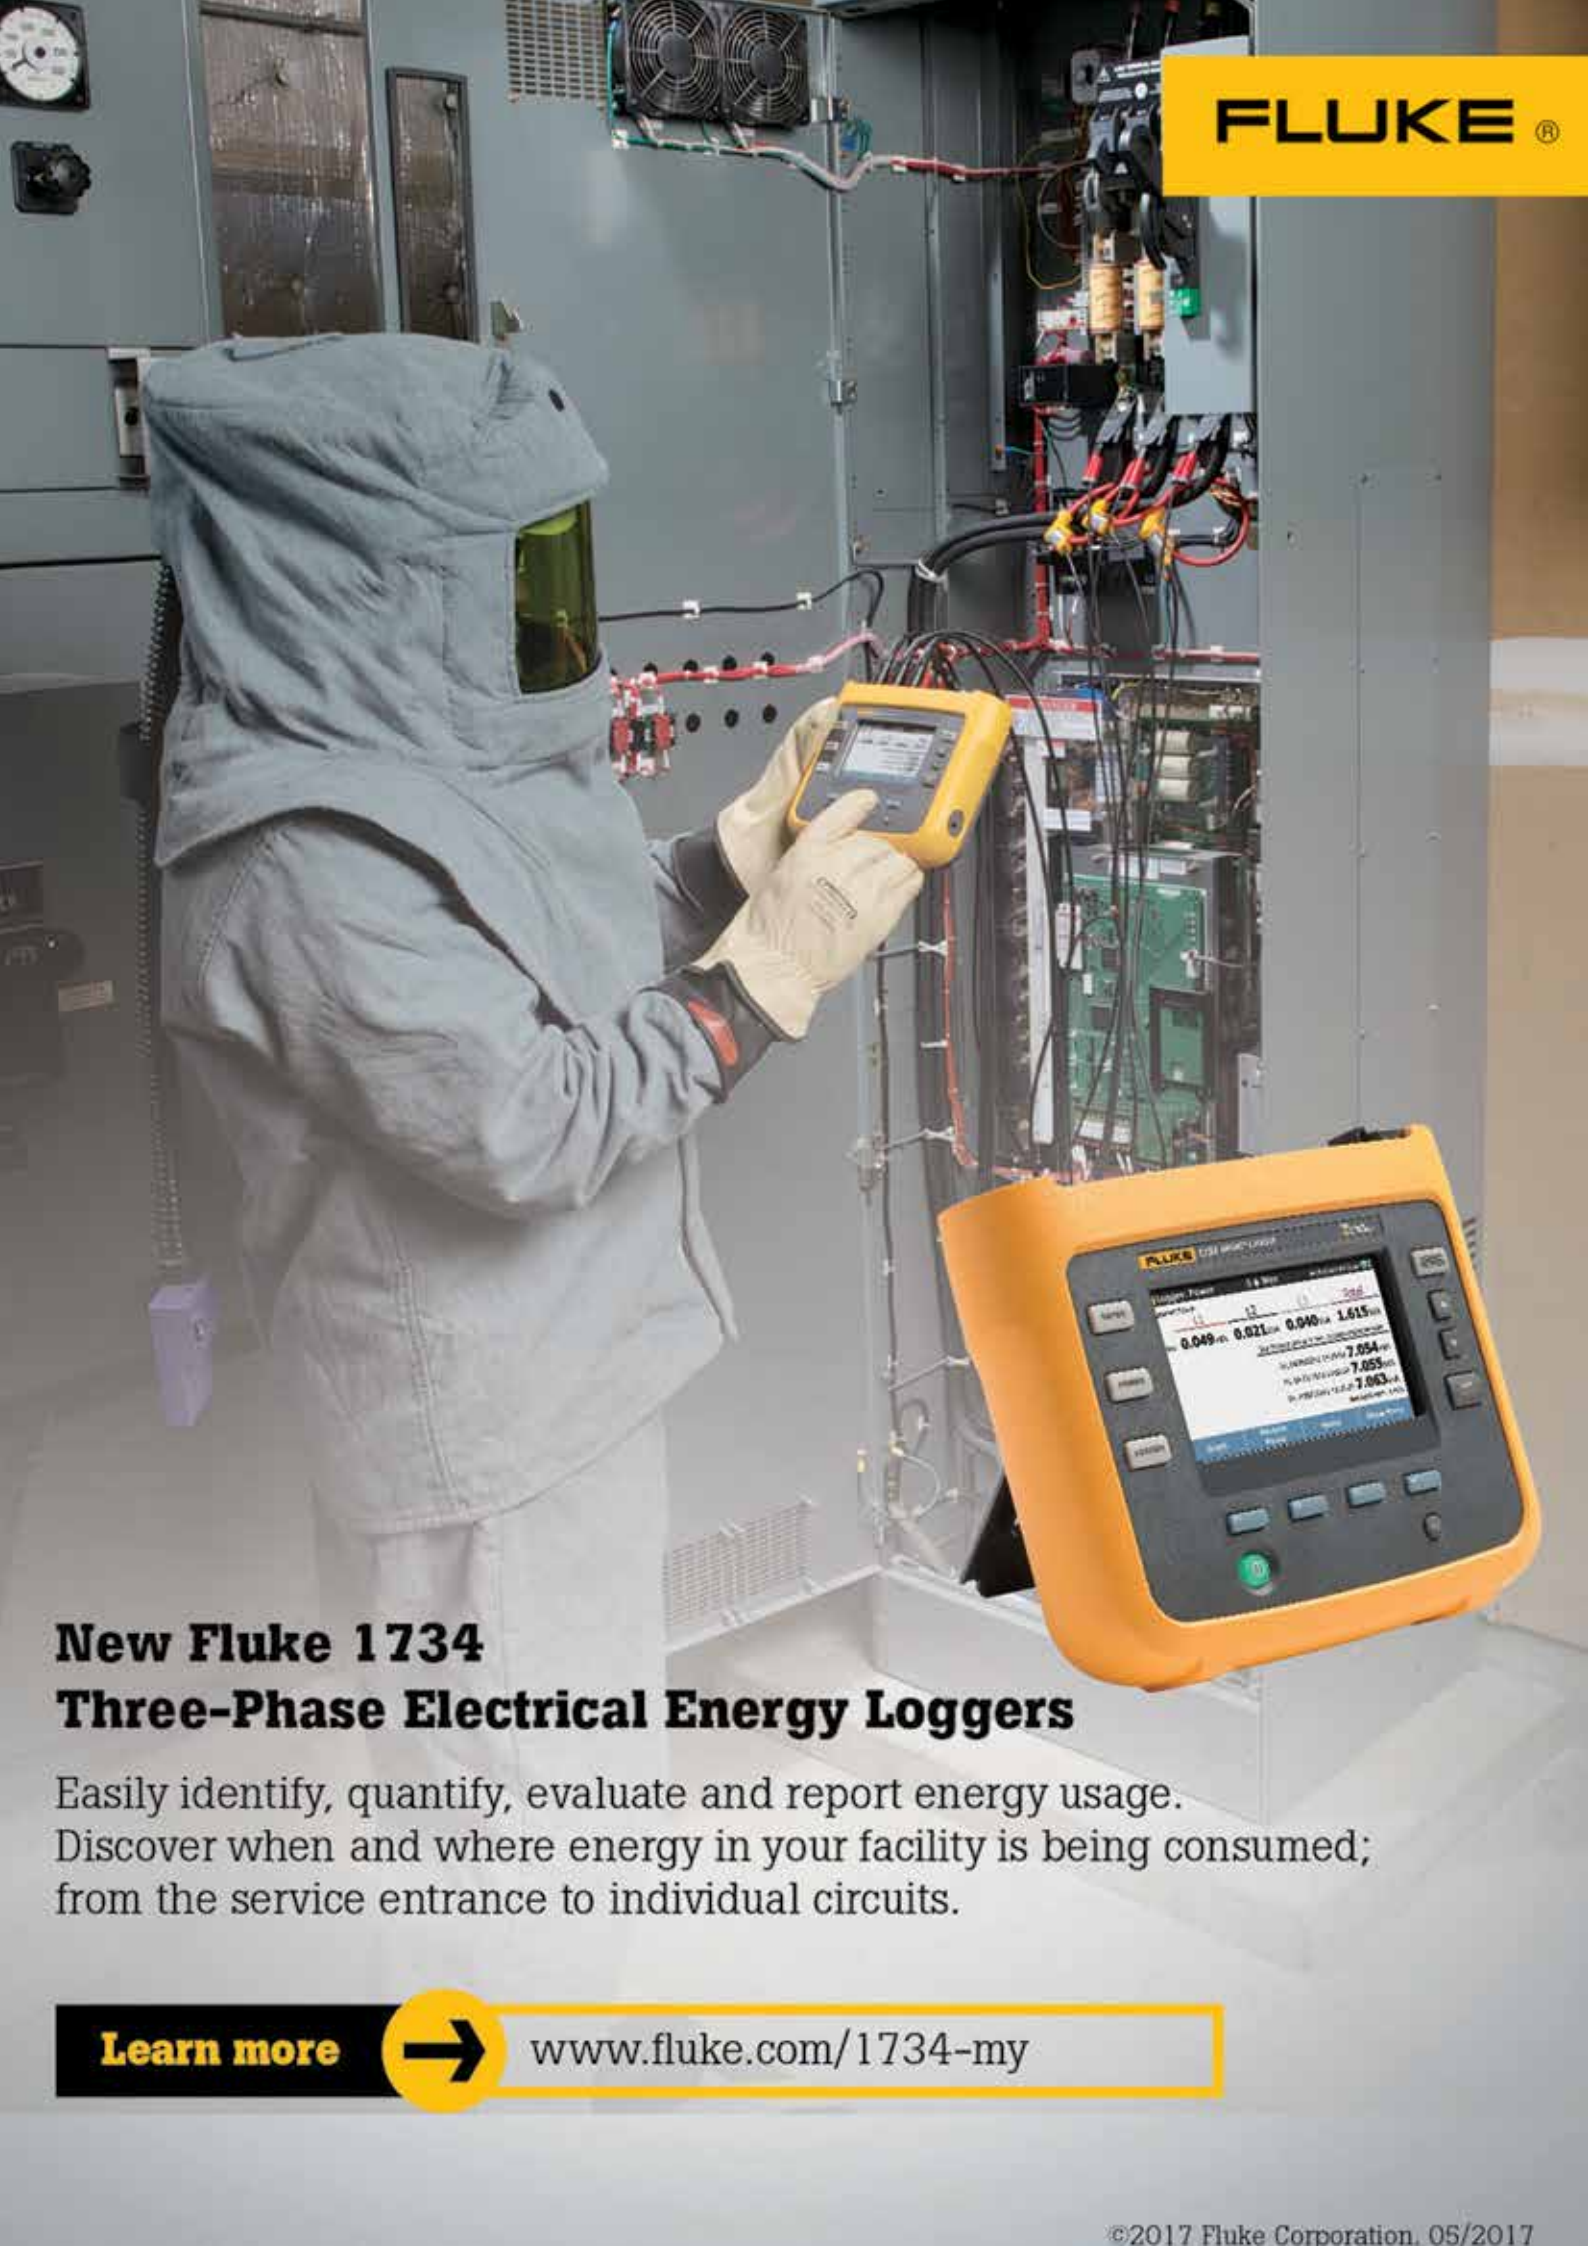

Overall, it was a very fruitful visit and the TEEAM Delegation recorded their deepest appreciation and thanks for HKTDC's warm hospitality which was duly accorded to them.

Supportive – Seeking potential market.

Interesting – Group photo at the exhibition ground.

TEEAM Members Directory 2017-2018 Is Coming Soon!

TEEAM is very pleased to announce the forthcoming publication of the latest TEEAM Members Directory 2017-2018. Advertisement space to showcase and highlight your Company's Products and Services, is now open for immediate booking. This not-to-be-missed TEEAM Members Directory 2017-2018, is a highly useful and excellent reference material to both the local E&E business communities and also for all overseas buyers too who are keen to expand their businesses worldwide. It is an affordable 1-stop reference book which contains the following Value-Added features:

- TEEAM Members' Business Contact Details
- A Ready Guide to Malaysian Ministries, Government Departments, Statutory Bodies & Utilities
- List of ACEM Panel Firms (M&E disciplines)
- Contacts of Embassies and High Commissions in Malaysia
- List of MATRADE's Overseas Network (46 offices/representations worldwide)
- AFEEC, FAPECA & IFEC Members' Contacts

For further enquiries and full payment details regarding your Company's advertisement spot/spots selection and advanced reservations/bookings, please e-mail to the TEEAM Secretariat at vince@teeam.org.my

[N.B. First-come, first-served only. Spots will be taken up fast, based on previous experience. Priority to TEEAM Members]

Cover design may be subjected to change.

5 YEAR WARRANTY

Protection against lightning
current amplitude 200 kA (10/350 μ s)

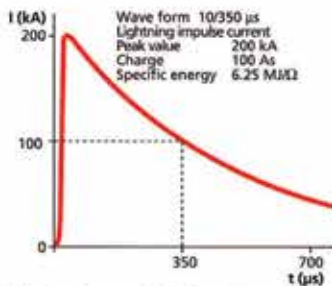

DEHNventil® M TT

Section of DEHNventil® spark gap

Red/Line

Coordinated Surge Protection
for Power Supply Systems

- **Class I** - encapsulated (non-exhausting) triggered spark - gap technology
- Withstand high lightning impulse current of up to 200 kA (I_{stroke})
- Extremely low voltage protection level (U_p) ≤ 1.5 kV for terminal equipment
- Easy Coordination for equipment to Type 1 + Type 2 + Type 3 (≤ 5 m)
- "RADAX Flow" Technology with **WAVE BREAKERS FUNCTION**
- Short - circuit current withstand capability (I_{SCCR}) of 50 kA_{rms}
- Zero Leakage Current
- Type tested by **KEMA** according to the standard IEC61643-1/-11

Networking & Appreciation Dinner for the Press

On 22nd February 2017, TEEAM hosted a Networking and Appreciation Dinner for the Press at the Oriental Banquet, Petaling Jaya. TEEAM President, Ir Chew Shee Fuee KMN, together with Exco Members, as well as Sub-Committee Chairmen and Secretariat staffs, gave a warm reception to the Press members in attendance.

This annual networking dinner was an excellent way to thank the members of the Press for their tremendous support in terms of good publicity and wide coverage for TEEAM's activities plus public awareness campaigns. It was indeed a joyful night of active networking, good food and drinks, topped up with fun-filled karaoke singing sessions which kept everyone enthralled. TEEAM hopes to keep this close working relationship with the Press on-going.

The 30-odd Press representatives who attended the dinner were from Sin Chew Daily, Nanyang Siang Pau, China Press, Oriental Daily,

Guang Ming Daily and Kwong Wah Press. They comprised Managing Directors, Corporate Communications and Promotions General Managers, Senior Managers, Assistant Managers and Executives, Public Relations Executives, Chinese Guilds Affairs Officers, Advertising Sales Representatives, Reporters and Photographers. TEEAM takes this opportunity to extend a very big thank you for their kind attendance and excellent support!

Welcome Address – Ir Chew Shee Fuee KMN (TEEAM President) addressing members of the Press.

Korea Power Biz Meeting

A delegation from the Korea Midland Power Co Ltd (KOMIPO) was in Kuala Lumpur on 23rd February 2017 to seek business partnership with Malaysian companies. KOMIPO generates and supplies electricity in South Korea. It operates thermal and renewable energy power plants. The company also offers technical consulting, operations and maintenance, and training services, as well as engineering, procurement, and construction management services. In addition, it engages in the power plant construction, operation, and maintenance activities. KOMIPO is a subsidiary of Korea Electric Power Corporation.

An Electric Power-Gen Business Meeting was organised at Pullman Kuala Lumpur City Centre. The Korean delegation shared their experiences and knowledge with the local business community while seeking business opportunities. The Korean delegation introduced their innovations and new technology.

TEEAM extended support and encouraged members to attend business partnering meetings with the Korean companies. It was a fruitful day for all.

Thailand Energy Efficiency Industry Forum 2017

In response to the Thai government's pro-active energy conservation plans, the Electricity Generating Authority of Thailand (EGAT) has partnered with the Thai Ministry of Energy and the Federation of Thai Industries, to host "Thailand Energy Efficiency Week 2017". With support from the Organisers, IMPACT Exhibition Management Co Ltd and MEX Exhibitions Pvt Ltd, the event will bring together three exhibitions on energy-saving innovations from Thailand and other parts of the world. Thailand Energy Efficiency Week 2017 will be incorporating the LED Expo Thailand 2017, Thailand Energy Saving Expo 2017 and PCB Expo Thailand 2017.

To promote the event to the Malaysian business community, EGAT had organised a Thailand Energy Efficiency Industry Forum in Kuala Lumpur on 23rd February 2017. It was held at Hotel Melia in Kuala Lumpur. The Forum aimed to bring together all key players from the energy-saving industry, to exchange views and to be updated on the outlook and opportunities of the Malaysia-Thailand Energy Efficiency and LED (Light Emitting Diodes) sectors. This Forum was part of Thailand Energy Efficiency Week 2017's regional marketing activities and served as the prelude for the three exhibitions to be held from 11th to 13th May 2017 at IMPACT Bangkok.

Thank You – Speaker, Dr Tan Ching Seong receiving a token of appreciation from Mrs Parichart Sangsuwan (EGAT Assistant Director of Demand Side Implementation Division).

During the Industry Forum in Kuala Lumpur, Mrs Parichart Sangsuwan, Assistant Director, Demand Side Implementation Division of EGAT, chaired a panel discussion on "The Exciting Prospects of Asia's Energy Efficiency & LED Lighting Sectors and the Opportunities for the Thai-Malaysian Market".

MyCIE Vice Chairman, Dr Tan Ching Seong who is also the Honorary Secretary of TEEAM, was invited to speak on "Sustainability & Connectivity of the Lighting Industry". TEEAM is one of the supporting organisations and partners of the Thailand LED Expo 2017.

The Industry Forum attracted a good crowd and there was interactive discussions from the floor. TEEAM is organising a visiting delegation to the Expo.

Co-operation – (from left) Mr Ian Alexander Ross (Director of Asia Events Group), Ms Himani (MEX Director), Mrs Parichart Sangsuwan (EGAT Assistant Director of Demand Side Implementation Division) and Dr Tan Ching Seong (MyCIE Vice President and TEEAM Honorary Secretary).

Panel members – Taking questions from the floor.

Supportive Group – Attentive participants during the Energy Efficiency Industry Forum.
