FURUTEC®

Busduct System

Furutech Busduct System is borne from years of research and manufacturing experience, offering a broad range of busduct systems in a variety of applications and market segments. Our products meet the high expectations of our customers and their specifications. With the innovation of our R&D team, our busduct systems have been successfully type-tested and certified by various reputable certification bodies.

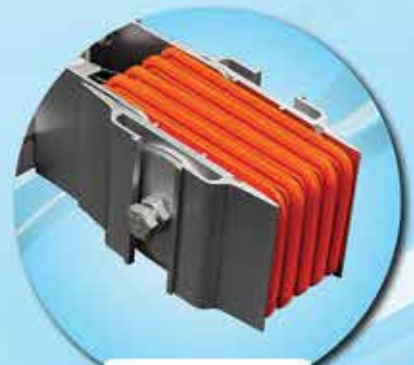

CR BUSDUCT

INDOOR & OUTDOOR TRANSITION JOINT

Type Testing

- Compliance to IEC 61439-6 and certified by KEMA/DEKRA & Intertek
- KEMA KEUR certification mark
- Seismic Test
- Fire Resistance test to BS 6387, CNS 14286, JIS C 8364 & JIS A 1304
- Tested to higher ambient temperature

AH BUSDUCT

Applications

- Power distribution for LV & MV
- Critical Power Distribution for data centre
- For outdoor and harsh environment

Powered by DEKRA

Intertek

FIRE RESISTANT & FLAME RETARDANT CABLES

Fire Resistant and Flame Retardant Cables are used for the installation of sprinkle systems, fire alarms, smoke detectors, emergency lights & power supplies, CCTV systems, PA systems, fireman's lift / elevators.

From The Editor's Desk

The long anticipated Malaysian General Elections 2018 had finally been completed.

Now that a new Government has been voted into office and to helm this country to greater heights of success both locally and internationally, there are high hopes for a better future for our country. More business-friendly measures and lesser restrictions for investors, both local and overseas, have been promised by our 93-year old history creating Premier. This augurs well for all business investors and industry players plus stakeholders.

TEEAM had also successfully completed its AGM on 29th April 2018. There are no Elections this year.

The Society of Philippines Electro-Technical Constructors and Suppliers, Inc (SPECS) will host the AFEEC-FAPECA Conference 2018. The Conference is set to be held from 20th – 21st September 2018 (Thursday-Friday) with its theme of “ENERGY SOLUTIONS” to be presented by respected Speakers from the different member countries. The event is in conjunction with SPECS 50th Anniversary and EE & P 2018 Exhibition (Electrical, Energy & Power Philippines 2018). These co-inciding events will be held at the SMX Convention Center, Mall of Asia Complex, in Pasay City, Manila. We hope more TEEAM members will be making plans to participate in this great event.

TEEAM's bi-annual Dinner will be held on 29th September 2018 at the One World Hotel in Petaling Jaya. We are looking for sponsors for our prestigious event. Your proactive support for the Dinner will be very much appreciated. Kindly contact the TEEAM Secretariat for further details on the sponsorship, should you be keen.

Thank you.

Regards,

TEEAM AGM 2018

On 29th April 2018, TEEAM held its Annual General Meeting (AGM) at TEEAM's new Seminar Hall. Some 57 members were present. The day's agenda included the Presidential Address, acceptance of minutes, annual reports and annual accounts.

Opening Address

TEEAM President, Ir Yong Ah Huat, expressed his gratitude to members for taking time-off on a Sunday to attend this important general meeting. He informed that TEEAM makes great effort in organising activities for the members' benefit and he hoped that members would participate pro-actively. He highlighted that TEEAM is currently participating actively in the various Committees in the Ministry of Energy, Green Technology & Water (KeTTHA), in drafting the Energy Efficiency & Conservation Act. The scope covers both electrical and thermal energy consumption for the purpose of achieving sustainable growth for the nation.

Acceptance of Minutes, Annual Report and Annual Accounts

The minutes of the last AGM held on 21st May 2017 were unanimously confirmed. The Annual Report on the activities of TEEAM for the

year 2017 was tabled and duly received and adopted by the General Meeting. The Audited Accounts for the year ended 31st December 2017 were tabled and duly adopted as well.

The day's event capped off with a buffet networking luncheon.

Registration – Good support from members in attendance.

TEEAM Exco – (From left) Mr Simon Leong (Vice President), Ir Chang Yew Cheong (Vice President), Mr Siew Choon Thye (Deputy President), Ir Yong Ah Huat (President), Mr Wong Chin Cheong (Honorary Treasurer) and Mr Stan Lim (Vice President).

Q & A – Ir Lee Teck Hock raising a question during the AGM.

Full attention – TEEAM AGM in progress.

Providing efficient and cost-effective automation solutions in over 100 countries

The rapidly changing industry requires affordable, high-quality automation products to meet demanding manufacturing requirements. Many system experts around the world have already chosen Autonics as their solution. Find out how Autonics automation solutions can help you and your business move forward at www.autonics.com

Autonics is a leading provider of automation solutions in South Korea. We develop and manufacture a wide range of automation-related products which are marketed worldwide. Our core products include various sensors, control devices, motion devices, process automation instruments, control switches, and peripheral connection equipment. Our products are trusted and adopted by engineers in various industrial applications including food manufacturing & packaging, plastic & rubber processing, semiconductor equipment, and metalworking machinery. Our technology is also widely applied in day-to-day automation devices including elevators, screen doors, ATM machines, CCTVs, and electronic office equipment.

**CEE CABLE
MANAGEMENT SYSTEMS
SDN BHD**

WE ARE NOW IN SHAH ALAM

Established as a manufacturer of cable support systems since 1990s, our business focus has been in Johor, Singapore and exports over the past 20 years. We have achieved reputable recognitions in product quality, on time delivery and after sales services. To further expand our focus, we have invested in setting up a new branch with storage facilities and sales office in Shah Alam, reaching out to better serve customers in the central and north regions. This investment underline our commitment and dedication and also putting confidence in the Malaysian economy. Being an innovative and progressive enterprise, we will continuously strive to bring new product innovations for market needs.

Technical Visit to the MRT Info Centre

On 14th May 2018, TEEAM successfully organised a Technical Visit to the Mass Rapid Transit (MRT) Info Centre located at Bandar Malaysia North, Kuala Lumpur. The visit received a good response from 22 TEEAM Council Members as well as the Committee Members and Secretariat Staffs. Upon arriving, the delegation was well received by officials from MMC Gamuda KVMRT(T) Sdn Bhd. An enlightening presentation was conducted by Mr Leong Shen-Li of the Strategic Communications & Stakeholders Relations of MRT Corporation.

The Klang Valley Mass Rapid Transit (KVMRT) project is part of the Government's Economic Transformation Programme (ETP) owned by the Malaysian Government through the MRT Corporation. MMC Gamuda undertakes the design and construction work for the underground package of the KVMRT project while MRT Corporation is the developer and asset owner of this KVMRT project. The first SBK MRT Line (Line 1) stretches from Sungai Buloh to Kajang covering a total distance of 51km and hosts 31 stations. It serves a catchment area of 1.2 million residents in the Klang Valley. Completed on 17th July 2017, the SBK Line hopes to reach a daily ridership of over 400,000 and now helps to mitigate the infamous traffic snarls.

The MRT Sungai Buloh-Serdang-Putrajaya Line (SSP Line) is the second MRT Line (Line 2) started to develop under the KVMRT project and construction is now underway. The line has a 52.2km alignment of which 38.7km is elevated and 13.5km is underground. The mega infrastructure project involves the design, construction

and completion of tunnels, underground stations and associated structures such as portals including escape shafts for the SSP Line underground. This SSP Line is expected to commence full service in the second quarter of 2022. This will further improve the traffic congestion problems faced by Kuala Lumpur, with an expected ridership of 530,000 passengers per day.

A third line called the MRT Circle Line will run some 40km long with 26 stations located in the Klang Valley. The expected completion date is in July 2026.

Overall, it was a very interesting visit for all who were present in getting unsurpassed first-hand information on the MRT1, MRT2 and the MRT3 Lines. It has also created an excellent avenue for win-win networking and the exploring of business opportunities vis-à-vis these multi-billion dollar mega projects. A big thank you and great appreciation go to MMC-Gamuda KVMRT for cordially hosting the visit and also to MRT Corporation for the exciting enlightening sessions. Congratulations!

Thank you – Ir Yong Ah Huat (TEEAM President) presented a token of appreciation to Mr Leong Shen-Li of MRT Corp (right).

Win-Win Networking – Valuable information being shared with the TEEAM Delegates.

Showcase – The cutting wheel of the Variable Density Tunnel Boring Machine.

All smiles – TEEAM Delegates posing in front of the MRT Information Centre.

~~You can't~~ measure voltage without test leads

The NEW Fluke T6-1000 Electrical Tester

Now measure voltage the same way you measure current, without test lead contact to live voltage. FieldSense technology lets you slide the open fork over a conductor and see the voltage level.¹

BE SAFER Measure voltage to 1000 V ac through the open fork, without test leads.

BE FASTER No need to open covers or remove wire nuts.

BE MORE EFFICIENT Simultaneously measure voltage and current.

BE EVERYWHERE 17.8 mm open fork is widest in the industry; measure up to 200 A on 4/0 wires (120 mm²).

¹ Requires capacitive path to ground, provided through user in most applications. Ground connection via test lead may be required in some situations.

For pricing, go to your local distributor or

Networking & Appreciation Dinner for the Press

TEEAM hosted its annual Networking and Appreciation Dinner for the Press on 25th April 2018 at the Oriental Pavilion, Petaling Jaya. This annual dinner was an excellent way to thank the members of the Press for their tremendous support in terms of good publicity and wide coverage for TEEAM's activities.

TEEAM President, Ir Yong Ah Huat, together with Exco Members, gave a warm reception to the Press members in attendance. It was a fun-filled night of good food and drinks, great company and entertaining karaoke singing. TEEAM hopes to keep this close win-win working relationship with the Press on-going.

Some 30 Press representatives who attended the dinner were from Sin Chew Daily, Nanyang Siang Pau, China Press, Oriental Daily, Guang Ming Daily and Kwong Wah Press. They comprised Managing Directors, Corporate Communications and Promotions General Managers, Senior Managers, Assistant Managers and Executives, Public Relations Executives, Chinese Guilds Affairs Officers, Advertising Sales Representatives, Reporters and Photographers. TEEAM takes this opportunity to extend a very big thank you to the Press members for their tremendous support!

BROUGHT TO YOU BY:

2018 MIECF, Macao

The 11th edition since 2008, the Macao International Environmental Co-Operation Forum & Exhibition (2018 MIECF) was successfully hosted by the Government of the Macao Special Administrative Region (SAR) of the People's Republic of China, from 12th to 14th April 2018 at The Venetian, Macao. Under the show themed "Shaping of Eco-Cities for Inclusive Green Economy", MIECF provided an effective platform fostering regional exchange and co-operation on environmental development. It aims to enhance the development of eco-city construction. 2018 MIECF featured on the green industry sectors including Energy Efficiency, Green Building, Green Mobility, Waste and Water Management Solutions, Environmental Services, Air Quality and Environmental-friendly products, technologies and services. The exhibition attracted over 490 exhibitors from eighteen countries and regions.

TEEAM organised a 10-member delegation to visit the show and participated in the Green Matching and networking activities to gain exposure to the new market. The event played a significant role in

linking the local enterprises with potential overseas buyers from the overseas markets, locate suitable business partners to promote their products and/or services, and to establish win-win smart partnership business contacts. TEEAM also took part as an exhibitor to promote the association's activities. Another MIECF's event highlight was the Conference of the "Green Forum" by world renowned thought leaders where they shared their insights and opinions on global environmental issues.

TEEAM wishes to put on record our heartfelt thanks to the Government of Macao SAR, the Macao Trade and Investment Promotion Institute (IPIM) and Koelnmesse for their kind invitation, warm hospitality and great efforts in making all the arrangements for our delegation. It was a very good exposure and great opportunity to meet so many participants from the Green Industry across the region. The next MIECF will return to The Venetian Macao and is slated for 28th to 30th March 2019. For more information, please visit www.macaomiecf.com.

All Smiles – Delegates from Malaysia at the Macao Expo.

Good turnout – A photo taken at the TEEAM booth.

Supportive – Overwhelming response at the 2018 MIECF opening ceremony.

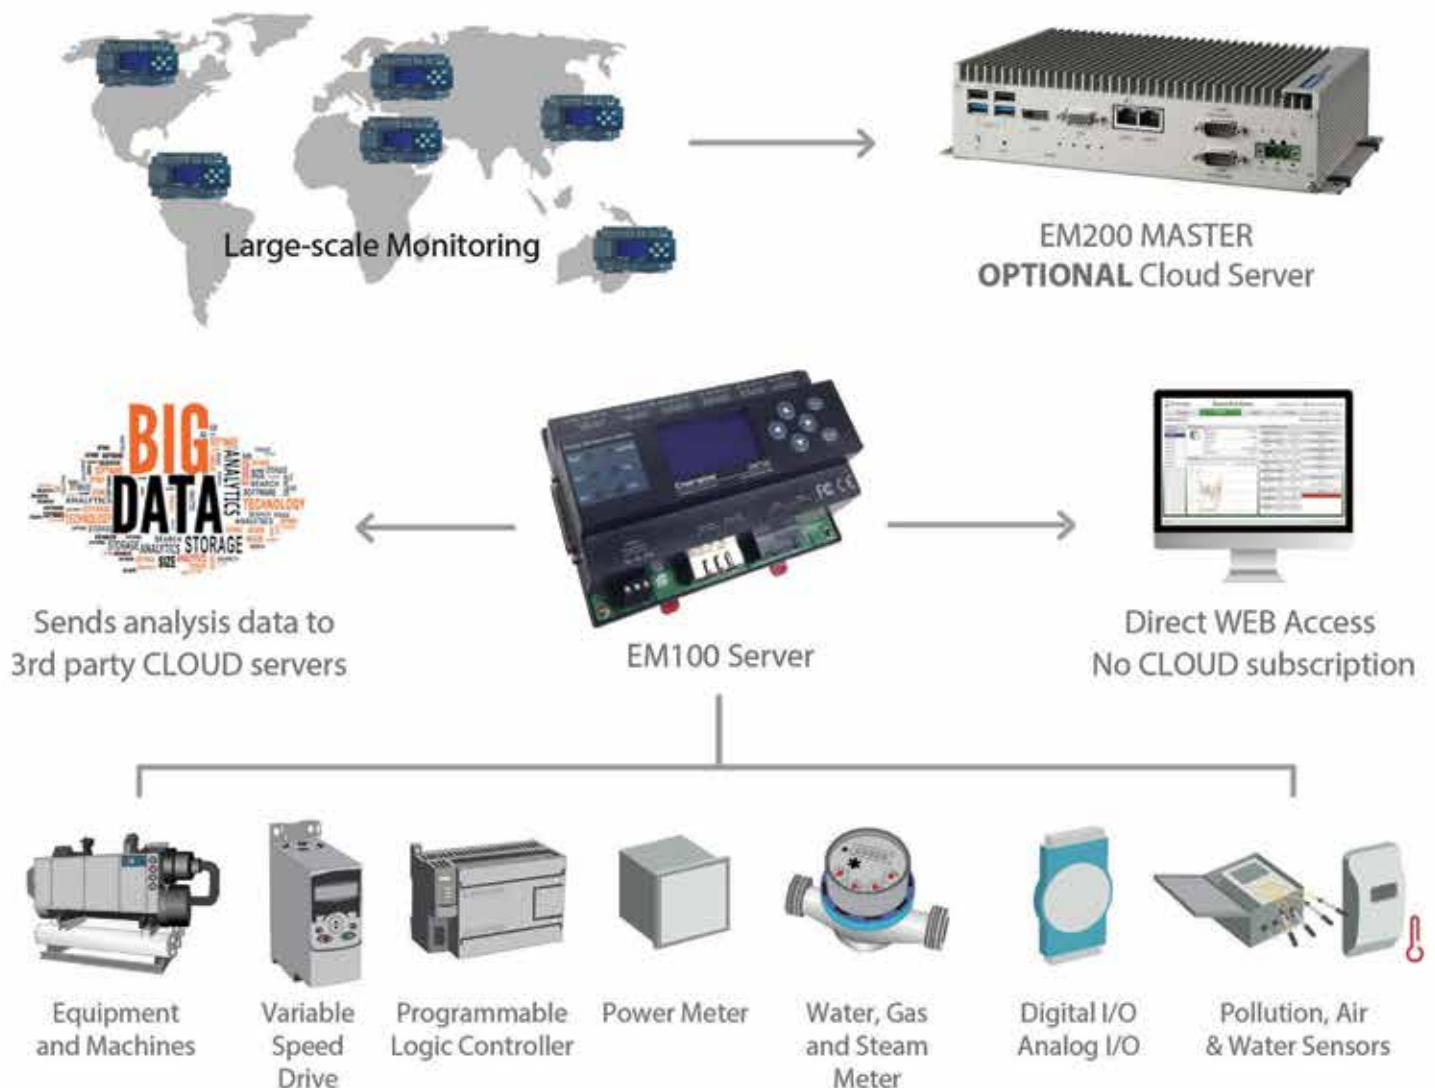

Attractive – Promotion of new technology.

The Most Application Versatile Smart Device in the Market

The Enerwise Solutions Application Server is a multi-functional and multi-layered monitoring & control device that embeds advanced programming logic, reporting system and SCADA HMI all in a simple device unit

TEEAM Council Meeting in Sibü, Sarawak

The TEEAM Council held a meeting in Sibü during its networking trip to Sarawak in conjunction with the 39th Anniversary of the Electrical Association of Sarawak and Sabah (EASS). A 3-days/2-nights trip from 12th to 14th January 2018 was participated by a 25-member delegation comprising Council Members, some spouses and Secretariat staffs. The turnout was good as some other State Associations, namely, Johor Bahru Electrical & Electronics Association (JBEEA), The Perak Electrical Association (PEA), Persatuan Kekompetenan Penjaga Jentera & Pendawai Elektrik Perak (PKPPE) and Sarawak Electrical Association (SEA) also joined this networking trip.

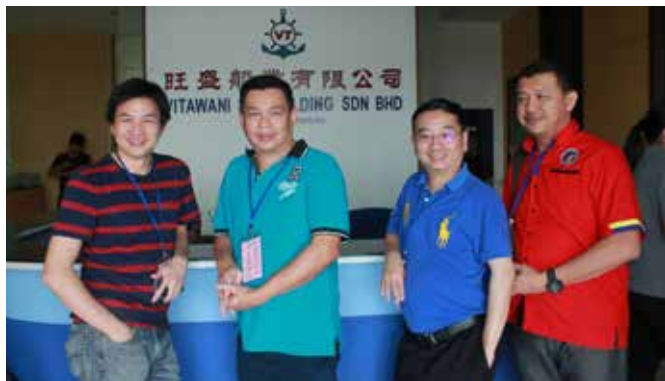

Visit to UCTS

Upon arriving at Sibü Airport in the morning of 12th January 2018, the Chairman of EASS, Mr Hii Hua Chuon, led his Committee Members to present a warm welcome to the delegation. Thereafter, the delegation visited the University College of Technology Sarawak (UCTS). UCTS is owned by the State of Sarawak through the State Financial Secretary, and is located in Sibü town. The University is the culmination of the State of Sarawak's vision and commitment in establishing a world-class institution of higher learning founded on Science and Technology.

The TEEAM delegation was very impressed by the technology on display and their modern school of study environment. UCTS is equipped with the latest state-of-the-art facilities to facilitate teaching, learning and research activities which are required of the qualifying graduates when they step into the industrial environment. The TEEAM delegation thanked UCTS for the briefing and their guided tour around the campus, and also for the lunch hosted at a breathtaking environment in the campus.

Appreciation – Souvenir presentation after the UCTS briefing.

At the Vitawani reception – TEEAM Council with PEA and PKPPE (Perak) officials.

Technical Visit to Shipyard

On the next day of the programme, TEEAM visited the crucial Sibü-based shipyard industry which is strategically located in Rantau Panjang, Sarawak. It is an area designated by the Sarawak State Government as a cluster for industries. The delegation visited two shipbuilding companies, namely, Vitawani Sdn Bhd and Rajang Muda Sdn Bhd. It was an eye-opener for the delegation to learn about the shipyards that produce a wide range of vessels including anchor handlers, tugboats, ferries and barges which are very important to Sarawak's social and economic well-being.

Council Meeting

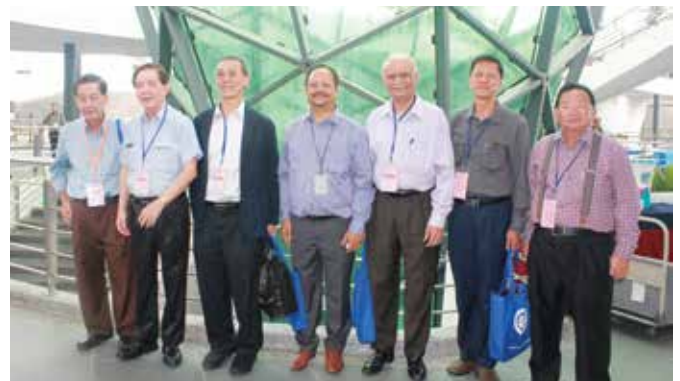

The 4th TEEAM Council Meeting for the year 2017-2019 was held in the afternoon of 13th January 2018 at the Kingwood Hotel in Sibü. The meeting was well attended by most Council Members together with the EASS Committee Members as well as the Chairman, Mr Hii Hua Chuon. It was a fruitful meeting to share valuable information among the Council Members with a noble view to improve and enhance benefits for members.

Sincere thanks to EASS

During the compact 3-day trip to Sibü, Council Members took the opportunity to visit Sibü town and the surrounding attractive places. These included the famous and largest Central Market in Malaysia and also the Sibü Cultural Heritage Museum. Overall, it was a great trip and created a good platform for information and idea exchange, business networking and social gathering. TEEAM extends its deepest appreciation and sincere gratitude to EASS for their warm hospitality during the delegation's stay in Sibü.

Good turnout – TEEAM's 1st Council Meeting in Sibü, Sarawak.

Friendship – Towards a stronger relationship among members in West and East Malaysia.

TEEAM at EASS 39th Anniversary Dinner

The Electrical Association of Sarawak and Sabah (EASS) celebrated its 39th Anniversary Dinner-cum-Electrical Vocational Skill (Level 2) Graduation Ceremony on 12th January 2018. A Grand Dinner was successfully organised at the Kingwood Hotel in Sibu, Sarawak. A delegation of Council Members from TEEAM as well as other State Associations attended the dinner at the cordial invitation of EASS.

The Guest-of-Honour was The Honorable, Datuk Wong Soon Koh, Second Finance Minister and Minister of International Trade and E-Commerce of Sarawak. Highlights of the activities were presentation of the Graduation Certificates for the trainees, souvenirs presentation, lucky draws, singing and dance performances. It was a truly memorable occasion to build stronger bonds with members of EASS, to catch up and to meet new acquaintances for business exploration and win-win joint-ventures.

Thank you EASS – (6th from left) TEEAM President, Ir Yong Ah Huat receiving a souvenir from Mr Hii Hua Chuon (EASS Chairman). With them are EASS Officials.

Happy Birthday EASS! – Cake-cutting ceremony to mark the 39th Anniversary Celebration.

Interaction – A memorable night to enjoy and catch-up with each other.

Congratulations! – A group photo of all Wiremen (Level 2) Graduates with EASS officials and VIP guests.

Joyous occasion – Strong support from TEEAM delegation as well as State Associations' members.

Networking – (From left) Mr Subramaniam Karuppan (TEEAM Honorary Secretary), Mr Suresh Kumar Gorasia (TEEAM International Affairs Chairman & Past President), Dato' Ir Lee Peng Joo (TEEAM Advisor & Past President), Dato' Sri Peter Lu (SEA Chairman) and Ir Yong Ah Huat (TEEAM President).

Fully supportive – A big turnout of VIPs, Guests, EASS Members and their families who gathered at the Kingwood Hotel in Sibu to celebrate the grand occasion.

SOUTHERN CABLE

MISSION

To be the premier sources of cables and wires

SOUTHERN CABLE ensured that our product certification and approval are being registered to accreditation bodies in nation and international levels. We are able to guarantee to our customers that all our product certifications are monitored through annual certification audits.

VISION

Good Quality-Prompt Delivery-Competitive Price-Innovation-Flexibility

SOUTHERN CABLE guaranteed that all our products are of good qualities. Our main target is on time delivery as in accordance to our customers' requirement and expectation.

BUSINESS STRATEGY

Efficiency-Discipline-

SOUTHERN CABLE guaranteed that our management team uphold strong morale values, uprightness, righteousness and is very professional in their scope of work.

TRUSTED BRAND IN TOWN !

To meet the demand of our current and prospective customer requirements, Southern Cable provides our own design of cable and wires, in related to specification standard (National International or relevant specification). In the Design Department, we have a team of experienced workforce putting in efforts relentlessly to design as in accordance to the standard of ISO 9001:2008, clause 7.3 Design and Development.

In general, the Design Department is the crucial team in preparation for the cable to be produced update all the Cable Specification, Raw Material Specification, Cable Drawing, and Cable Design Card daily or from time to time depending on current condition and customer's requirement. We are using Pronto Code System to manage and distribute the Cable Drawing and Design Card to other related departments. In addition, the Design Department is also responsible of new products for trial run as well as requirement of accreditation bodies, regards to changes or modification to meet the relevant standard.

ELECRAMA 2018, India

The 13th edition of ELECRAMA 2018, the premier showcase of the largest power transmission and distribution exhibition, was held from 10th to 14th March, 2018 at the India Expo Mart, Greater Noida in India. ELECRAMA 2018, organised by the Indian Electrical & Electronics Manufacturers' Association (IEEMA), spanned over 100,000 square meters of exhibition area featuring a whopping 1,500 odd exhibitors, proudly showcasing their wide range of products, services, solutions and technologies to visitors who hailed from more than 100 countries – truly remarkable indeed!

ELECRAMA 2018 successfully reached an impressive milestone by achieving stellar growth in the India power sector and also became a window to the world to showcase its leadership position in all forms of energy and energy-related matters. A 25-member Trade Mission organised by TEEAM, led by its President Ir Yong Ah Huat, took part in the ChangeXchange 2018 Programme, a Reverse Buyer-Seller Meet (RBSM) which was concurrently organised with ELECRAMA 2018. Foreign buyers were cordially invited to the RBSM to source the impressive range of electrical products and solutions from India. The event, fourth in its series, attracted a huge number

of buyers from ASEAN (Association of South-East Asian Nations), Africa, Iran, CIS (Commonwealth of Independence States) and SAARC (South-Asian Association for Regional Co-operation).

The TEEAM Delegation was highly impressed by the vast range of exhibits and technologies which were displayed at the exhibition.

TEEAM also had a booth at ELECRAMA to promote the association's activities including the members' products, services and technologies to the very lucrative Indian market. It was indeed a very fruitful plus an enriching experience for all during the 5-day power-packed event. TEEAM wishes to record its deepest appreciation and sincere thanks to IEEMA for their excellent arrangements and warm hospitality. Congratulations!

Power-packed show – LINKK Busway seeking opportunity to penetrate the Indian market.

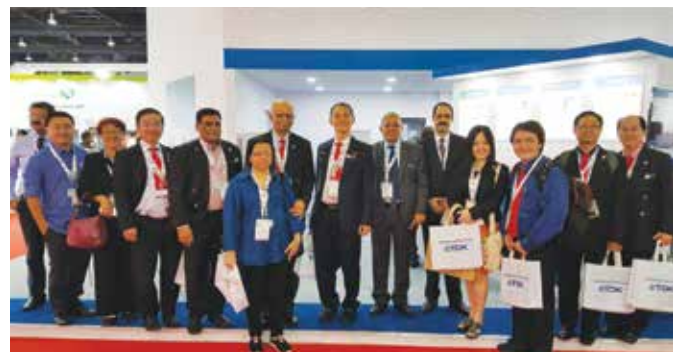

Strong Contingent from TEEAM – Part of the 25-Member Trade Mission.

All smiles – TEEAM Delegation visiting the TEEAM booth.

Friendship – TEEAM met-up with TEMCA Thailand.

At the TDK Booth – TEEAM Delegation walkabout the fairground.

For the album – TEEAM Delegation is highly impressed with the technologies showcased at the exhibition.

For the album – TEEAM President, Ir Yong Ah Huat (second from right) and First Lady, Mrs Jasmine Yong at the fairground.
